STANDARD PORM NO. 64 Office Memorandum • United States Government Mr. Nicholymy DATE: October 27 195 M. A. Phane FROM: SUBJECT: F. Stukenbrocker The attached article entitled "Civil Liberties" and Law Enforcement in Mid-Twentieth Century America" has been prepared for the Iowa Law Review, University of Iowa. It is a lengthy article, approximating 9,000 words with footnotes. Messrs. Ladd, Clegg, Rosen and Laughlin have approved it. In this article we have tried to present an over-all picture of civil liberties in relation to law enforcement, emphasizing that every facet of modern-day law enforcement - training, fingerprints, the laboratory, a high standard of ethics, etc. - affects the liberties of the individual. By remaining faithful to the democratic tradition, seeking at all times the truth, law enforcement is doing its share in preserving America's chefished liberties. We have shown the work of the FBI, dbotty in the criminal and subversive fields, pointing out that the Bureau is dedicated, while fulfilling its manifold responsibilities, Btp protecting the rights of the individual PARTICANT UNITED 67" Attachment-und had This article was prepared-by-Special-Agent F. C. Stukenbroeker of the Crime Records Section. I personally MAJ:rm feel that he has done an outstanding job in getting this

material together. The west originals

ASSISTANT TO THE DIRECTOR NICHOLS:

Special Agent Stukenbroeker presents a favorable personal appearance and has an outstanding personality. This Special Agent is most valuable in Crime Records in view of his research and writing ability. He is well versed in Communist matters and is especially valuable along this line. This Special Agent has a great number of ideas from time to time which are most valuable in the work of the section. It is felt he should.definitely be kept in mind for advancement.

STATUS: Satisfactory

Inspector Harbo:

Mr. Stukenbroeker has been in the Crime Records Section since June, 1948. | He stated that he likes his assignment. He demonstrated enthusiasm in his attitude toward his job and his performance has been well above average on all his assignments. He has constructive ideas which he works in to articles and other material prepared by him. He impressed me as a definitely above average supervisor. dictation ability was rated as Very Good by the stenographers./

Director
Federal Bureau of Investigation
United States Department of Justice
Washington, D. C.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Chief Clerk of the FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Chief Clerk of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of \$10,000. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

FERN C. STUKENBROEKER Special Agent GS-13, \$8560 EOD 11-16-42

This Special Agent is of medium build, presents a favorable personal appearance and has a good personality. Mr. Stukenbroeker's dictation is satisfactory and it should be noted that he is also most proficient in the use of the typewriter. While he has been assigned to the Bureau Headquarters for a considerable period of time, I feel that this Agent is well qualified from an investigative stand-point, particularly with regard to subversive activities. Mr. Stukenbroeker is presently enjoying good health.

During the past year this Agent has been used almost exclusively on research work requiring a great deal of originality and digging. His material is far above average in quality and is always thought out.

In addition to his primary duties, this Agent has been used from time to time on tours and speaking engagements which he has handled in a highly satisfactory manner.

It should be noted that in the early part of the rating period this Agent was selected on the special team to handle applicant matters at the Seat of Government. On November 14, 1951, he received a letter from the Director commending him highly on his fine work in connection with material prepared for a law review.

Special Agent Stukenbroeker is a decided asset to the Crime Records Section and is a most valuable man to the Bureau. It is felt that he should be kept in mind for future advancement and on the basis of his work during the year he is entitled to a rating of Satisfactory in Grade GS-13.

Dear Mr. Stukenbroeker:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Bethesda, Maryland, on March 11, 1952.

This report reflects that you have no disqualifying physical defects.

It is noted that you have a rapid heartbeat and hypertension, your blood pressure at the time of this examination being 158/80; however, the examiner felt this to be psychological and he made no recommendation in this regard,

The Board of Examining Physicians of the United States Haval Hospital reports that you are capable of strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

With reference to the Director's memorandum of May 20th, regarding the potentialities of supervisors assigned at the Seat of Government, I wish to advise as follows with regard to Stukenbroker.

Stukenbroeker is a Ph.D. and is unusually well qualified for his present assignment handling research and related matters. I think that he can serve the Bureau's best interests in such an assignment. He is a scholarly type of person and I do not feel that Stukenbroeker is of the type to serve as either SAC or ASAC. He is quiet, unassuming, and while he has a very pleasant personality and likable disposition he is not the type to be out in the front.

SELK-INSTICTION RECORDS AND CONCUNICATIONS DIVISION April 21 to Lau 10, 1952

The self-inspection of the Records and Communications Livision was conducted by Massrs. C. L. Trotter, John V. Marshall, Faul F. O'Connoll, M. M. Reed, Arthur V. Kart, Fern C. Stukenbrocker, Robert E. Vick and Francis S. Crosby. Space natters were examined by Godfrey P. Bunaldue and Time and Attendance were audited by Lies M. A. Kahoutok.

All of the personnel participating in the self-inspection did a very satisfactory job. They were enthusiastic and thorough. Sufficient yellow copies of this memorandum are attached in order that a copy may be placed in the personnel file of each participant. The inspection followed the functional outline you indicated and complete esoperation was received in all sections.

The original of the work paper of the self-inspection has been put in the tickler folder on inspections and should be destroyed after the next inspection. The eactions have all received applies of this which pertain to their sections and a recheck indicates that suggestions and recommendations during the self-inspection are already in effect throughout the Division.

The memorandum for the Director on the self-inspection is also attached for your approval.

SUBJECT: FERN C. STUKENBROEKER Special Agent Supervisor Crime Records Section

Records and Communications Division

REALLOCATION

There is attached a permanent brief of Mr. Stukenbroekers.... file which reflects he entered on duty as a Special Agent on November 16, 1942 and is presently in Grade GS-13, \$8560 per annum, having been promoted to that grade on June 11, 1950. He is 33 years of age, married and has two children. He is a legal resident of Alexandria, Virginia, although he originally comes from St. Charles, Missouri. He has no office of preference. He has a Bachelor of Science Degree in Journalism, a Master of Arts Degree and a Doctor of Philosophy Degree. He served in three divisional offices prior to being assigned to the Crime Records Section of the Records and Communications Division on June 20, 1948.

Mr. Stukenbrocker has an outstanding record in the Bureau's Mr. Nichols in a memorandum dated June 3, 1952 stated that Stukenbroeker was a scholarly type of person and he did not think he was the type to serve as either SAC or ASAC but he was unusually qualified for his present assignment handling research and related matters.

Mr. Stukenbroeker has done such an outstanding job in his present assignment, I definitely feel he should be reallocated to Grade GS-14.

Dear Ur. Stukenbrocker:

The Bursan's Ten-Year Service Award Key, which I am enclosing herewith, is a small token of appreciation for your steadfast levalty and devotion to duty during the decade you have been with our organization. I would like to take this epportunity to extend my sincere congratulations upon this occasion of your Tenth Anniversary which you celebrate today.

The growth, development and justification of any organisation must necessarily rest upon the individual employees of such organisation. The Bureau has been fortunate to have such a large number of loyal and faithful employees who have exhibited an unswerving devotion to duty. It has only been through the diligent efforts of our "veteran" employees such as you that the fureau has been able to attain its present position of respect and esteem. I sincerely hope we day form nue to count on you to assist in discharging our every an increasing responsibilities.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent, of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent. I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. Dear Mr. Hoover:

I do want to tell you how much I appreciate the Ten-Year Service Award Key which you presented me this morning. To receive it from you personally, warmed my heart deeply. I shall cherish this memory for many years.

I feel highly honored to have the privilege of serving in the FBI. The high principles which you have set in your career of public service, integrity in government, the fight for law and order, and faith in the democratic tradition, have been an inspiration to all. They are constant incentives to do an ever better job, and the foundation stones which have made the FBI the truly great organization it is.

Mr. Fern C. Stukenbroeker Federal Bureau of Investigation Washington, D. C.

Dear Mr. Stukenbroeker:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Bethesda, Maryland, on February 17, 1953.

This report reflects that you have a scalp condition known as seborrheic dermatitis; however, the examiner did not consider this to be disqualifying and he made no recommendation in this regard.

The Board of Examining Physicians of the United States Naval Hospital reports that you are capable of strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

Sincerely yours,

Re: FERN C. STUKENBROEKER Special Agent EOD 11-16-42 GS 14, \$9600

Mr. Stukenbroeker is of medium build, presents a favorable personal appearance, and has an excellent personality. He gets along very well with his associates and is definitely interested in doing a good job.

This Agent has been used almost exclusively on research work which requires not only a great deal of originality but also the ability for ferreting pertinent data. His finished product is far above average in quality and reflects mental capabilities far above the ordinary.

Special Agent Stukenbroeker has a decided aptitude for research work and in this connection is a most valuable man to the Bureau in his current assignment in the Crime Records Section.

Special Agent Stukenbroeker's dictation is entirely satisfactory. He is enjoying good health at the present time. It should be noted that during the year he was qualified as an Inspector's Aide.

On the basis of his work during the year Agent Stukenbroeker is entitled to a rating of Satisfactory in Grade GS 14.

WASHINGTON 25, D. C.

Special Agent

Director Federal Bureau of Investigation United States Department of Justice Washington, D. C.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent, of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent. I am forwarding herewith (by CHECK - MCNEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

GEORGE M. PEET Special Agent GS-13, \$8360 EOD 2-9-42

In view of the transfer from this section of Special Agent Allan Gillies to the Buffalo Office as Assistant Special Agent in Charge, we will have an opening in the position of Unit Chief of the Research Unit.

It is recommended that Special Agent George V. Peet be designated to head this unit on a trial basis for a period of 90 days and that thereafter a recommendation be made concerning his permanent assignment.

Special Agent Peet has been an Agent since November 3, 1947, and has been in the Crime Records Section since Narch 24, 1952. He has been in Grade GG-13 since August 31, 1952. Special Agent Peet has a fine appearance, is an excellent public speaker and has had a varied experience in Crime Records. He is exceptionally good as an organizer and, I feel, is well qualified to handle the duties involved in this position.

Special Agents Fern C. Stukenbrocker, Thomas E. Bishop, Dwight J. Dalbey and Bernard H. Suttler have not been considered since they either head a unit at the present time or their work is of such a nature that they should not be given consideration. Ur. Dalbey is to be designated as the head of a new unit presently being set up on a trial basis in Crime Records.

Special Agents Edward P. Brown, Donald G. Hanning, Lawrence J. Heim and Harold P. Leinbaugh entered on duty during 1947 somewhat prior to Agent Peet. None has been in Crime Records as long as Peet however, and it is felt that Peet is better qualified for this particular position from the standpoint of experience in the section than any of the other Agents and should be given preference.

### Ladd RECOIMENDATION:

That Special Agent Peet's designation as head of the Glavin Research Unit in Crime Records be approved for a trial period of Rosen 90 days and that thereafter a recommendation be made for his Gearly permanent assignment in this position.

SUBJECT:

SPECIAL AGENT PERSONNEL

TO BE CONSIDERED FOR

ADVANCEMENT IN THE SERVICE

FERN C. Stuken brocker

Special Agent personnel assigned

In considering the Special Agent personnel assigned to the Records and Communications Division who should be considered for further advancement in the Bureau, I am not setting forth any comments regarding Inspector J. J. McGuire, Special Agents F. E. Crosby and Robert E. Wick of my office or on Unit Chiefs A. E. Leonard of the Statistical Section, M. A. Jones of the Crime Records Section, F. W. Waikart, Supervisor in Charge of the Administrative and Personnel Records Section or on Section Chief W. G. Eames of the Records Section. All of these men have either run field offices or been Assistant Special Agents in Charge or have been operating large sections here at the Seat of Government and their capabilities have been demonstrated.

#### SPECIAL AGENT PERSONNEL RECOMMENDED FOR ADVANCEMENT NOW:

The following Special Agents are recommended for further advancement in the Bureau's service now and are available for service anywhere:

Special Agent Arthur V. Hart, EOD 11-6-39, GS-13. Mr. Hart makes an excellent personal appearance and has had a great deal of Bureau experience. He has consistently done a betterthan-average job and could satisfactorily function as an Assistant Special Agent in Charge of a small office.

Special Agent Allan Gillies, EOD 12-16-40, GS-13. He makes an exceptionally good, mature physical appearance, is a hard worker and has excellent perspective and depth of thought. I recommend him for consideration as an ASAC.

Special Agent Thomas E. Bishop, EOD 6-30-41, GS-13. Mr. Bishop has had wide investigative experience, is energetic and is highly intelligent. His progress at the Seat of Government has been excellent. I believe he is potential SAC caliber. I recommend him for sonsideration for an ASAC position.

Memorandum for Mr. Tolson

RE: SPECIAL AGENT PERSONNEL TO BE CONSIDERED FOR ADVANCEMENT IN THE SERVICE

Special Agent Edward C. Kemper, EOD 8-25-41, GS-14. Mr. Kemper makes an excellent personal appearance, is enthusiastic, has a lot of drive and determination and has matured in Bureau assignments very rapidly. His work has been outstanding. He is definitely SAC caliber. At the present time, in view of the heavy tour season, he is assigned exclusively to the operation of Bureau tours. On a long-range basis, he should become one of the better SACs in due time.

Special Agent L. E. Short, EOD 7-21-47, (Clerk 6-16-41) GS-13. Mr. Short makes an excellent personal appearance and has been doing an outstanding job in the Records Section handling personnel matters. He is loyal, enthusiastic and aggressive. He is definitely SAC caliber. While he is capable now of functioning as an ASAC in the field, his current assignment in the Records Section I believe renders his services more valuable to the Bureau in his current position.

#### SAC CALIBER BUT NOT IMMEDIATELY AVAILABLE:

Special Agent Dwight J. Dalbey, EOD 12-2-40, GS-13.

Mr. Dalbey makes an excellent personal appearance, is intelligent and resourceful. I have previously recommended him for ASAC and he is definitely capable of functioning as such, however, Mr. Dalbey is currently endeavoring to adopt a child and in view of legal requirements for residence purposes, he has asked that he be permitted to stay in his current assignment until the adoption technicalities are completed. I will advise the Bureau of Mr. Dalbey's availability for transfer when the adoption matter is clarified.

Special Agent George L. Carroll, EOD 8-4-41, GS-14. Special Agent Carroll has been one of the best qualified Special Agents we have had in this Division. He does an excellent job on everything he handles and could function as an SAC without any difficulty. Mr. Carroll, however, has a large family and his wife's health militates against any move at this time. He is a very definite asset to the Bureau and I feel he is far more valuable in his present assignment than functioning as an ASAC in the field. Because of his definite capabilities, I am listing him since he has all the desirable qualities for an SAC position.

Memorandum for Mr. Tolson

RE: SPECIAL AGENT PERSONNEL TO BE CONSIDERED FOR ADVANCEMENT IN THE SERVICE

#### FOR FUTURE LONG-RANGE DEVELOPMENT:

The following Special Agents are recommended on a long-range basis for future development in the Bureau:

Special Agent D. M. Brown, EOD 2-16-42, GS-13. Brown has had long experience in the Bureau. He is in charge of the Correlation Unit in the Records Section and has done an effective job. He is entirely reliable and should continue to develop.

Special Agent F. H. Freund, EOD 4-22-46 (Clerk 7-22-40), GS-12. Mr. Freund is an excellent Agent having a solid background of experience. His work in the Records Section in the Classifying Unit has been outstanding. He has just been with us in this Division about a year and I look forward to Freund becoming one of the outstanding prospects in this Division for long-range development.

Special Agent Donald G. Hanning, EOD 1-6-47, GS-12. Mr. Hanning has just been in this Division for two months. He makes a good personal appearance, has a good record in the field and appears to be making above-average progress. With further experience at the Seat of Government, he should develop rapidly.

Special Agent Harold P. Leinbaugh, EOD 10-20-47, GS-12. Mr. Leinbaugh makes a good personal appearance, is qualified as an Inspector's Aid and his work generally here has been satisfactory. He needs additional supervisory experience, however, I believe on a long-range basis his latent capabilities will be further demonstrated.

Special Agent George M. Peet, EOD 11-3-47 (Clerk 2-9-42), GS-13. Mr. Peet presents a good personal appearance, is enthusiastic and energetic. He should continue to develop with additional Seat of Government experience.

Special Agent P. F. O'Connell, EOD 4-19-48 (Clerk 6-10-40), GS-13. Mr. O'Connell makes an outstanding personal appearance and has been doing a highly satisfactory job in the File Review Unit of the Records Section. His development while at the Seat of Government has been most rapid and in due time with more experience, he should be able to function as an ASAC in the field.

Memorandum for Mr. Tolson

RE: SPECIAL AGENT PERSONNEL
TO BE CONSIDERED FOR
ADVANCEMENT IN THE SERVICE

Special Agent J. B. Engelstad, EOD 1-10-49, (Clerk 8-25-41), GS-12. Mr. Engelstad makes a good personal appearance and has been doing an excellent job in the General Index Unit in the Records Section. He is one of our newer men in that Section and has been developing most satisfactory. His prospects for the future are bright.

Special Agent J. W. Marshall, EOD 7-25-49 (Clerk 7-6-42), GS-12. Mr. Marshall has an excellent potential for developing in the future. He has been very effective in his administrations of the Filing Unit of the ecords Section, the largest Unit in the entire ecords Section. His development has been rapid and his work in the iling Unit has been most effective. I look forward to Marshall's rapid rise in the Bureau.

Special Agent Elmer Todd, EOD 12-11-50, GS-10. Mr. Todd makes a very good personal appearance. He has a good background in Bureau work, although he is quite new in this Division and at the Seat of Government. He will need much more supervisory experience here at the Seat of Government, but I feel he will absorb this rapidly and should ultimately build himself an outstanding record.

Special Agent R. Hilton Davis, EOD 1-15-51, GS-10. Mr. Davis has an excellent background and while he has not had extensive field experience, his progress in the Crime Records Section has been very rapid, probably due to his previous newspaper experience. He will need additional conditioning here at the Seat of Government but he does have the native intelligence, ambition and enthusiasm to carry him along much further in the Bureau.

Special Agent George W. Gunn, EOD 2-5-51, GS-10. Mr. Gunn makes a good personal appearance, is extremely persistent and he approaches his work in a dogged, deliberate fashion and while relatively new in the Bureau, his potentialities for ultimate development in the Bureau are very good.

Special Agent James T. Murphy, EOD 3-5-51, GS-10, Special Agent Murphy makes a good personal appearance and does rather well on contact work. He is quite new in the Bureau but has been developing very rapidly. On a long-range basis, some of the rough spots can be smoothed out and I think Murphy's progress ultimately in the Bureau will be highly satisfactory.

Memorandum for Mr. Tolson

RE: SPECIAL AGENT PERSONNEL TO BE CONSIDERED FOR ADVANCEMENT IN THE SERVICE

#### SPECIALISTS:

The following list of Special Agents are all doing excellent work in the Records and Communications Division and in View of their paricular personal background and capabilities, they are in the nature of specialists whose services are much more important to the Bureau as a whole in their present position then in field assignments:

Special Agent B. M. Suttler, EOD 7-6-36, GS-14. Mr. Suttler's experience and background well qualify him for his current assignment wher at the Seat of Government to handle special matters in this Division and his qualifications are will known in contact work and representing the Bureau at public gatherings.

Special Agent Morton M. Reed, EOD 7-28-38, GS-13. Mr. Reed is the Assistant Chief of the Statistical Section. He is primarily a records specialist and as an accountant, his handling of the Uniform Crime Reporting program, the Bureau statistics, cost and production data for the Bureau make him outstanding in this highly specialized field where his services to the Bureau as a whole are best rendered.

Special Agent O. G. Medler, EOD 8-3-31, GS-13. Mr. Medler in the Routing Unit of the Records Section is a technician whose assignment to the Records Section places him in a position wherein his services at the Seat of Government serve the best interests of the Bureau.

Special Agent Leonard M. Linton, EOD 11-4-40, GS-13. Linton is an outstanding man in the Reocrds Section and has handled the Classifying Unit in an effective manner. His place is here at the Seat of Government due to an unfortunate casualty in the war Linton received a shrapnel wound in his eye which detracts from his personal appearance. His development here at the Seat of Government will continue to show favorable progress.

Special Agent Lawrence J. Heim, EOD 8-30-48, GS-12.
Mr. Heim has had rather good experience, is a hard worker and has shown unusual capabilities in research in the Crime Records Section. He is rather small physically, which detracts from his personal appearance. His research w rk, however, here at the Seat of Government has been satisfactory.

0 0

Memorandum to Mr. Tolson

Special Agent Fern C. Stukenbroeker, EOD 11-16-42, GS-14. Mr. Stukenbroeker is primarily a research man who has a very distinct flair for original writing. His background is particularly good for this type of work. He is intelligent, enthusiastic and has shown great promise as a specialist in this function in the Crime Records Section. His physical appearance is average and I believe in view of the highly specialized qualifications he has for this type of work the Bureau is benefitted most by his assignment here at the Seat of Government.

He also has the ability to present his findings in the most alsor and concise language. Agent Stakenbrocker to exceptionally well versed in juvesile delinquency matters as well as those dealing with Communicated and related topics.

During recent months Agent Studenbrooker was responsible for the research in connection with raterial concerning the logalty program for the "Entersity of Chicago Low Ecolou." This research was not comprehensive and was presented in an exemplory wanner. He also performed the research for an article entitled "The Civil Invests-gations of the FAI" which appeared in the "Cyrocues Law Review" seek time ago and his work on this project reflected unusual intilation, ingenuity and judgment.

Agent Etukarbroeker kos consistently demonstrated a brood understanding of the various functions of the Bureau in both the criminal and security fields and he has willingly assumed responsibility for handling the most complex matters, which has resulted in a voluntary contribution on his part of many hours of his own time, without regard for personal compeniance. On numerous accessions he has voluntarily worked on westenes both in the office and in his home in order to complete difficult rescape accessions in a court period of time.

Agent Ctubenbrocker, by continuously fulfilling his every difficult configurants with the highest degree of officiency, is definitely considered to have exceeded the normal requirements of his position pufficiently to have set one of the standards for a superior accomplishment award which provides as follows:

"Costeined work performace for a period of at least three wonths of such asture that it scrits special recognition for superior accomplishment over and above the normal requirements of the employee's position, provided that his current performance rating is not less than "Estinfactory."

STUKENBROEKER SUBJECT: Special Agent EOD 11-16-42 GS-14, \$9800° I wanted to call to your attention at this time the very excellent work which is being done in this Section at the present time by the above-mentioned Special Agent. Mr. Stukenbroeker has been in Crime Records since June 20, 1948, and during this entire time has done a most outstanding job indeed. Agent Stukenbroeker has an outstanding personality and gets along exceedingly well with other Special Agents as well as

with clerical employees. He is intensely loyal to the Bureau and this is clearly reflected in his day to day work.

This Special Agent is a man of ideas and vision. He can be depended upon to do a good job of research regardless of the subject matter. He is well versed in juvenile delinquency matters and is particularly valuable to the Section on matters dealing with Communism and related topics. Typical of Agent Stukenbroeker's work in recent months was the research he did in connection with material for the University of Chicago Law Review on the Loyalty Program. (Copy attached) This research was most comprehensive and presented the Bureau's work in a very favorable light.

Also attached is a copy of material entitled "The Civil Investigations of the FBI" which appeared in the Spring, 1950, issue of the Syracuse Law Review. Special Agent Stukenbroeker did the research work in connection with this material. is merely typical of the type of product this Supervisor can turn out.

In view of this Agent's deep loyalty to the Bureau and his sustained work performance of an outstanding nature ever since his assignment in Crime Records, I just wanted to specifically Precomend A Meritoms Thomation call this matter to your attention.

Dear Mr. Hoover:

Please accept my deepest personal thanks for your recommendation that I receive a promotion in salary as an award for superior accomplishment. This is indeed a high honor. To know that my work, even in a small way, is helpful to the FBI, is a great privilege. The very fact that you took time from your busy schedule to personally advise me of this award makes it ever more meaningful.

Under your leadership the FBI has become an organization in which the American people have implicit faith and confidence. This is true because of the high ideals you have set for the FBI. It is a privilege to be part of an organization which is today doing so much for the welfare of the nation.

Reference is made to my memorandum of March 25, 1954, reflecting the serious illness of the father of the above-mentioned Special Agent who is assigned to the Crime Records Section.

I learned from Mrs. Stukenbroeker last night that the operation on Mr. Stukenbroeker's father was performed last Friday afternoon. A rather large tumor was removed from the base of the brain in an operation lasting three and one-half hours. The doctors stated that the first four days would be the critical period which would decide whether or not the operation was successful.

You will be kept advised in event any additional information is received.

#### RECOMMENDATION:

That this matter be referred to the Administrative Division so that an appropriate note can be sent to Agent Stukenbroeker, who is presently staying at the home of a brother, D. W. Stukenbroeker, 2450 Cecelia Avenue, Brentwood, Missouri.

Early this morning Mr. Stukenbroeker advised me that he had received word from a brother that their father is in rather serious shape and will be operated on in the morning in order to remove a tumor at the top of the spinal column in the neck. Mr. Stukenbroeker's first report was that the doctor felt that the operation would probably be successful.

Shortly after noon today, however, Stukenbroeker's brother called again to advise that the situation seems to be much more serious than at first thought and that there is some doubt as to the success of the operation. Accordingly, Mr. Stukenbroeker is getting the first plane he can get in order to be with his father.

You will be kept advised concerning this situation.

#### RECOMMENDATION:

It is recommended that this matter be referred to the Administrative Division for appropriate attention. It might be well to defer a letter to Mr. Stukenbroeker until we get the outcome of the operation tomorrow.

During recent months Agent Stukenbroeker was responsible for the research in connection with material concerning the loyalty program for the "University of Chicago Law Review." This research was most comprehensive and was presented in an exemplary manner. He also performed the research for an article entitled "The Civil Investigations of the FBI" which appeared in the "Syracuse Law Review" some time ago and his work on this project reflected unusual initiative, ingenuity and judgment.

Agent Stukenbroeker has consistently demonstrated a broad understanding of the various functions of the Bureau in both the criminal and security fields and he has willingly assumed responsibility for handling the most complex matters, which has resulted in a voluntary contribution on his part of many hours of his own time, without regard for personal convenience. On numerous occasions he has voluntarily worked on weekends both in the office and in his home in order to complete difficult research assignments in a short period of time.

Agent Stukenbroeker, by continuously fulfilling his many difficult assignments with the highest degree of efficiency, is definitely considered to have exceeded the normal requirements of his position sufficiently to have met one of the standards for a superior accomplishment award which provides as follows:

"Sustained work performance for a period of at least three months of such nature that it merits special recognition for superior accomplishment over and above the normal requirements of the employee's position, provided that his current performance rating is not less than 'Satisfactory.'"

As you are aware, Special Agent Stukenbroeker's oldest daughter has been in the hospital in Alexandria for the past couple of weeks because of pneumonia. The little girl has not been making good progress and has now been removed to Children's Hospital here in the city. She has not been responding to the usual drugs for this disease and yesterday, after a consultation with a specialist, the little girl's doctor decided that there is a puss pocket in one of the lungs. An operation was scheduled for this morning so that this puss pocket could be drained. It will be necessary for her to remain in Children's Hospital for a couple of weeks.

Dear Mr. Hoover,

Thank you for your kind letter of March 30, 1954, concerning my father's operation. In an hour of deep personal concern it brought great encouragement. My family joins me in expressing appreciation.

I am happy to say that my father is now over the critical period. Many months may still be required until he is able to regain his usual strength, but we feel the operation was a success.

Sincerely yours

Re: FERN C. STUKENBROEKER
Special Agent
EOD 11-16-42
GS-14, \$9800

Special Agent Stukenbroeker has been in the Crime Records Section in a research capacity for a number of years. He is of medium build, has a good personality and is most congenial.

Special Agent Stukenbroeker is perhaps the most versatile research man we have in Crime Records at the present time. He has a great deal of originality, a thorough command of English and is always thinking ahead. Mr. Stukenbroeker is in good health and, while he has occasion to do very little dictating, his dictation ability is entirely satisfactory.

Special Agent Stukenbroeker recently was recommended for a meritorious increase in salary because of the fine research work which he is doing at the present time.

Based on this Agent's performance during the year, I feel he is entitled to a rating of Satisfactory in Grade GS-14.

This Special Agent is primarily a research man and while it is felt that he should be kept in mind for advancement it is believed that this should be restricted to research work at the Seat of Government.

STUKENBROEKER SUBJECT: Special Agent EOD 11-16-42 GS-14, \$9800 I wanted to advise you of the latest information concerning the illness of the father and daughter of the abovementioned Special Agent. Mr. Stukenbroeker's father is recuperating gradually from his operation for the removal of a tumor from the base of his brain. He is still in the hospital and while he feels well he is having considerable difficulty with coordination. It is felt that it may take several months before he recovers. With regard to Mr. Stukenbroeker's daughter, it has been found that the infection is in the lower lobe of the right lung. Apparently the lobe has been perforated and the question is whether it will heal. If it does heal everything will be fine, otherwise an operation will be necessary to remove a portion of the lung. If this operation is successful, the doctor feels that ten years from now this portion of the lung will not be missed. The doctor hopes that the situation will clear up of itself and an operation will not be necessary. RECOMMENDATION: For information only. MAJ:mcq

Special Agent GS-14, \$10,000 EOD 11-16-42

You will recall that the father of the above mentioned Special Agent had a serious operation some two months ago. A tumor was removed from the brain and the father showed rather remarkable recovery, getting so he could walk around with the help of a cane. Approximately three weeks ago, however, Mr. Stukenbroeker's father fell and hit his head and, since that time, has been unable to swallow since his throat was paralyzed. Though the father has shown improvement from time to time in recent days, Mr. Stukenbroeker's sister called his home shortly before nine this morning to advise that the father had taken a turn for the worse and that Agent Stukenbroeker should come home. Accordingly, SA Stukenbroeker made arrangements to leave for his home by plane around noon today.

Agent Stukenbroeker can be reached in care of Mrs. G. H. Stukenbroeker, 803 North Fifth Street, St. Charles, Missouri, or in care of his brother, Mr. D. W. Stukenbroeker, 2450 Cecelia Avenue, Brentwood, Missouri.

#### RECOMMENDATION:

That this matter be referred to the Administrative Division so that an appropriate note can be sent Agent Stukenbroeker.

With reference to the Director's memorandum of July 14, 1954, instructing that Special Agents Lester E. Short and F. C. Stukenbroeker report to the Training Division at 9:00 a.m., July 15, for an Inspection assignment of three weeks' duration, I wish to advise that Short is scheduled to go on leave on Saturday, July 17. Stukenbroeker is on an assignment which it would not be in the Bureau's best interests to take him off of at this moment. Accordingly, I have arranged for Special Agents Frank J. Hudson and John P. Linehan to assist in this Inspection.

This is hitting us at a bad time with the vacations scheduled and with the detachment of Mr. Kemper out of the section, and, accordingly, we will cancel the In-Service Training of Special Agent D. J. Dalbey which is scheduled for July 19 and we will work this in at a later date.

Dear Mr. Hoover:

\*\*\*

Thank you for your kind letter of June 11, 1954, expressing sympathy on the loss of my father. Your words were most consoling in an hour of great bereavement.

My father deeply influenced my life. He set the very highest standards for his children. Always shall I remember his admonitions that faith in God was life's only true foundation. As a school teacher and administrator for almost 40 years, his life was one of service to others. I pray that I can live up to the high principles which always guided him - principles which made him unceasingly loyal to his family, his nation and his God.

My family joins me in expressing grateful appreciation for your most considerate thoughts.

Sincerely yours,

FERN C. STUKENBROEKER Special Agent GS-14, \$10,000 EOD 11-16-42

This Special Agent is of medium build. He has a favorable personal appearance, a good personality and gets along well with other employees. Mr. Stukenbroeker is congenial and always well groomed.

During the past year, Agent Stukenbroeker (continued his far above-average work in the research field.) He is exceedingly well versed in Bureau policy, has an excellent command of the English language, and has deep insight into current problems confronting the Bureau. He is most dependable and can be counted on regardless of how intricate the research problem happens to be.

This Special Agent's dictation is satisfactory. He, at the present time, is in good health.

Special Agent Stukenbroeker has handled a limited number of speeches and tours during the year though we attempt to cut these to a minimum in view of his value as a research man.

/ This Special Agent is interested in advancement; and in view of his peculiar research talents, it is felt that he should be considered for advancement only at the Seat of Government.

Based on this Special Agent's work during the past year, I feel he is entitled to a rating of Satisfactory in Grade GS-14.

Dear Agent Stukenbrocker,

"Thank You"to you, but please know your tour of the F.B.I. was very much appreciated by my Dad and the two children and myself. We were very impressed by the talking about it all, and especially Agent Hitt's skill. We were there the first week in May and Ed King of Senator Bridges' office had phoned ahead. Sorry to be so late but I really had my hands full on our arrival back in N.H., as my son had a very badly infected throat.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK) - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. CONGRESSMAN THOMAS P. O'NEILL, Jr.

The secretary of Congressman Thomas P. O'Neill, Jr. of Massachusetts called this morning to make arrangements for the sister of a member of the staff, which is being handled separately.

She calls quite frequently to arrange tours for friends of the Congressman and mentioned that Mrs. O'Neill, the Congressman's wife, and their five children had been in for a tour yesterday and they had received "wonderful, wonderful treatment." She felt the Congressman would be in touch with Mr. Hoover to thank him for the gracious treatment afforded his family as well as for our kindness in taking care of their requests.

Agent F. C. Stukenbroeker of the Crime Records Section conducted the tour for Mrs. O'Neill.

ffice Memorandum UNITED STATES GOVERNMENT DATE: November 30,7 1955 M. A 736 FROM SUBJECT: FERN C. STUKENBROEKER Special Agent EOD 11-16-42 GS-14, \$10,960 GORDON EXMALMFELDT Special Agent EOD 2-19-51 GS-12, \$7570 Your attention is directed to the article on bank robbery by Beverly Smith which appears in the attached November-29th issue of the Saturday Evening Post. This article is most comprehensive, very interesting and most favorable from the Bureau's standpoint. I feel that it will do a lot of good in connection with the current bank robbery situation. Before Mr. Smith prepared the article he received a most comprehensive eighty-page memorandum from the Bureau. Later he made a few additional inquiries on specific points and received additional information. This memorandum was prepared in Crime Records primarily by SA Fern C. Stukenbroeker. SA Gordon E. Malmfeldt assisted in getting additional material for Mr. Smith and held numerous conferences with Smith going over the material after Mr. Stukenbroeker went on leave. I think these two supervisors did-outstanding jobs in getting up the material initially and in handling Smith during the preparation of the story. RECOMMENDATION: That Special Agents Fern C. Stukenbroeker and Gordon E. Malmfeldt be commended for their fine work in connection with the Beverly Smith article on bank robbery. Enclosure (1) MAJ:mcq (3)

Mr. J. Edgar Hoover, Director Federal Bureau of Investigation Washington 25, D. C.

Dear Mr. Hoover:

Thank you so much for your kind comments on the bank robbery article in the current Saturday Evening Post. They are especially appreciated as coming from you.

The article was made possible by the fine cooperation of the Bureau and the friendly guidance of Lou Nichols. I would like also to mention two of your younger men, Fern Stukenbroker and Gordon Malmfeldt, who worked with intelligence and untiring patience in digging up the facts and helping me to get them straight.

The editors believe the article will serve a constructive purpose and hope soon to try another one on some other urgent aspect of the battle against crime to which you have devoted your days and nights for so many years.

Sincerely yours,

United States Department of Justice
Washington, D. C.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following menner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

FROM : M. A. Jone's

SUBJECT: SA FERN C. STUKENBROEKER REQUEST FOR LETTER OF RECOMMENDATION

Boardman Nichols Belmont Harbo . Mohr. Parsons Rosen Tamm Winterrowd Tele. Room Holloman

Tolson

Special Agent Fern C. Stukenbroeker has received & letter dated April 27, 1956, from Harry G. Balthis, Executive Secretary, Virginia Conference Board of Education, The Methodist Church, 414 Methodist Building, Richmond 19, Virginia, saying that Miss Nora Topalian, Director of Christian Education, Trinity Methodist Church, Alexandria, Virginia, of which Agent Stukenbroeker is a member, had given his name as a reference. Miss Topalian wishes to be consecrated as a fully certified Director at the Virginia Annual Conference, Methodist Church, which will meet next Ur. Balthis asked for a statement with reference to Miss Topalian's character, personality, etc.

Agent Stukenbroeker has known Miss Topalian for roughly 4 years, since she became Director of Christian Education at Trinity Methodist Church. He worked with her first while he was a teacher of the Senior Young People, later when he was Chairman of the Trinity Official Board and for the past two years as Church School Superintendent. He has found her to be a capable, loyal young lady worthy of recommendation.

File 67-370797 reflects that Miss Topalian was employed by the FBI in a clerical capacity from April 23, 1943 to September 1, 1944, at which time she submitted her voluntary resignation. The reason for leaving was to return to school. Her services were satisfactory and she was recommended for rehiring. She was employed intermittently on a part-time and a full-time basis. Miss Topalian's sister, Elsie Rose Topalian, was also employed intermittently by the Bureau as a clerk-typist on a part-time and full-time basis from March 26, 1943 to September 12, 1944. Her services also were RECOMMENDATION: RECORDED 150 67-368814)

### SUGGESTED LETTER

Reverend Harry Balthis

Dear Sir:

I have received your letter in reference to the desire of Miss Nora Topalian, Director of Christian Education, Trinity Methodist Church, Alexandria, Virginia, to be consecrated as a fully certified Director at the forthcoming session of the Virginia Annual Conference. It is a pleasure to write this letter in support of her application.

I have known Miss Topalian since September, 1952, when she assumed her present position as Director of Christian Education at Trinity. I first became acquainted with her work when I served as a teacher of our senior young people in the Church School. Then as Chairman of Trinity's Official Board and for the last two years as Church School Superintendent, I have had occasion to know her work at first hand, virtually on a day-to-day basis.

During this period I have found Miss Topalian to be a fine Christian young lady, of good character, emotionally stable and an excellent leader. She is fully committed to the service of Christ and His church. In her job at Trinity, she has had occasion to work with all age groups, including our young people in the Methodist Youth Fellowships, where she has done a particularly fine job. She has worked long hours, with enthusiasm and interest, always trying to better the entire church program. Miss Topalian has continued her education by taking graduate courses in religion at George Washington University, Washington, D. C., attending Methodist conferences and working in local and district educational activities. She has a good knowledge of the Methodist program of Christian education and always serves as a good representative of her church and denomination.

On the basis of the above observations, I would heartily recommend Hiss Topalian for consecration as a fully certified Director.

Sincerely yours,

Special Agent Stukenbroeker played an absolutely essential role in connection with many phases of the Whitehead book. A diligent and thoroughly accurate worker, Special Agent Stukenbroeker initiated the documentation procedure in connection with this project. He was responsible for compiling the detailed index which will be published in the book, and he also carried a heavy load of the proofreading burden.

This Agent worked long, hard and cheerfully on this project since the first of the year. The benefits rendered the entire project by Special Agent Stukenbroeker are simply incalculable.

## RECOMMENDATION:

BY DON WHITEHEAD

It is recommended that Special Agent Stukenbroeker be most highly commended for his efforts in connection with "The FBI Story: A Report to the People."

THE FBI STORY

Fern C. Stukenbrocker

As we approach the publication date of the book, I desire to call to your attention the list of Bureau personnel whom I feel should be commended by letter for the assistance which they gave in the preparation of the material and working on various phases of the book.

Special Agent James T. Murphy, Crime Records Section -Murphy was pretty much the wheel horse, was assigned to coordinating the various projects, and he worked on the book from the outset compiling research data, worked on its documentation and has handled himself exceedingly well. I consider that his efforts were outstanding.

Special Agent Gordon E. Malmfeldt, Crime Records Section -Malmfeldt has worked continuously on the book since mid-October of 1955. He did a large part of the original research as well as documentation. He has been exceedingly conscientious and was persistent in running down points seeking accuracy.

Special Agent William Pfeiffer - Pfeiffer is now assigned to the Special Chinese Language School. This assignment took place after the major portion of the book had been finished. His efforts were excellent in gathering and compiling research material and in checking it out.

Special Agent Dwight Dalbey, Training and Inspection Division - Dalbey handled the research material covering the portions on World War I and SIS material. His work was extremely thorough, detailed and accurate. His enthusiasm was excellent.

Special Agent Fern C. Stukenbroeker, Crime Records Section - Stukenbroeker did a great deal of the original research work; how-ever, his chief responsibility was in reviewing Whitehead's manuscript in the documentation work and in playing the role of a "devil's advocate." His contribution was invaluable. He carried on a major portion of the work on the index. Stukenbroeker is a purist so far as the use of the English language is concerned and he worked long hours and I consider his contribution outstanding.

Special Agent Russell S. Garner, Central Research, Domestic Intelligence Division - Garner did the research on the data concerning communism and espionage matters. He did an excellent job in condensing and surveying these voluminous files and in compiling outlines from which Whitehead worked. He did an outstanding job.

Special Agent Stanley M. Fuehrer, now assigned San Diego - Fuehrer, while assigned in the Central Research Section of the Domestic Intelligence Division, assisted Garner. His research was excellent and his performance was also excellent.

Special Agent William C. Sullivan, Central Research Section, Domestic Intelligence Division - Sullivan Supervised the efforts of Garner and Fuehrer. He aided me personally, particularly in chapters on communism and espionage and related matters. In addition, he read the manuscript in toto on at least two occasions and other portions he checked considerably. His work was outstanding. He has already been commended by the Director so a letter need not be sent to him at this time.

Special Agent George W. Gunn, Crime Records Section - Gunn, while not regularly assigned to this project, made an extreme-ly valuable contribution with research which was used in the chapter on the smear campaign of 1940, the data on the Palmer raids and civil rights.

M. A. Jones, Chief of the Crime Records Section - Jones was most helpful throughout the entire project. He made available 3 of his supervisors who were utilized full time. Jones took up some of the slack. Jones also read the manuscript and was very helpful to

me personally. One letter should go to him for his own efforts and also on behalf of the entire Crime Records Section.
Records Section - was assigned to the project at the very beginning. She maintained the index of sources utilized, was of great assistance in locating material in Bureau files. Her work was so outstanding and her performance was so excellent that by separate memorandum she is being recommended to receive a meritorious award in addition to a letter of commendation
Records Section - was assigned to this project from the Correlation Unit of the Records Section and she handled a large portion of the typing on the outline and final draft of the manuscript. She is neat and accurate. She worked long hours and her services were satisfactory.
Communication Division - Miss Smith was the proofreader. She maintained records on the documentation, footnotes, and she was very enthusiastic and took an unusual interest in the project and be separate memorandum she is being recommended to receive a meritorious award in addition to a letter of commendation.
Records Section - was assigned to work on the project exclusively in the files section. Her background of the Bureau as well as her knowledge of procedures enabled her to locate data in both Bureau and Department files when we had very little to go on in the way of description. She put in long hours and her work was outstanding.
assisted materially throughout the entire course of the project. She helped in the typing and various other clerical functions which were involved in the project. Her services were excellent.
assigned Nichols' front office - was of great assistance to various individuals who were working on the book. I did considerable cross checking and she helped me a great deal. Many nights she remained in the office helping out on matters which she was not able to do in view of the routine work of the office during the day.

Nichols to Tolson Memorandum

11-6-56

This book turned out to be a much bigger project than I believe any of us ever realized when we started out. The help that we got from the various divisions and the interest taken by every Assistant Director was refreshing indeed. I would be derelict if I did not single out former Assistant Director E. D. Mason who doubled up and to my own certain knowledge took on certain additional burdens in the Training and Inspection Division in order to let Dalbey and help us on the book. I think that Mason should be commended specifically for this. Mr. Mohr of the Administrative Division likewise was exceedingly helpful, particularly dealing with compiling figures, many of which we later did not use but which we needed to have and I think that Mr. Mohr should be commended for himself and his associates.

Mr. Parsons in the Laboratory was particularly helpful in the chapters dealing with the Laboratory and also in other related matters, and I think that Mr. Parsons' personal enthusiasm and industry would warrant a letter of commendation mentioning F. M. Miller who assisted in the research work for the chapter used on the Laboratory.

As pointed out at the very beginning, I recommend that letters of commendation to the above-mentioned individuals and if approved, they will be sent through individually with a cover memorandum telling the contribution of each.

I agree. T. 11/7

### PART I GENERAL COMMENTS

Special Agent Stukenbroeker is of medium build, has a favorable personal appearance and a likeable and winning personality. Mr. Stukenbroeker is a very conscientious worker and is exceedingly well versed in Bureau policy and in the field of communism. He is most outstanding in research work and is very meticulous and valuable when matters of fine detail are involved. He is full of ideas and is particularly well versed in the use of English. During a large portion of the rating period Mr. Stukenbroeker was engaged full time in the research, documentation and indexing of the Whitehead book. His valuable contribution in this regard was recognized by a letter dated November 13, 1956, which commended him for his "splendid assistance" in connection with the book.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following schedule for In-Service Training for Crime Records Section during the remainder of the year is suggested:

Special Agent Fern C. Stukenbroeker's In-Service was previously cancelled because of a special project and it is suggested that he be rescheduled for the Security School beginning September 16, 1957.

Special Agent James T. Murphy was a member of the In-Service Class beginning April 29th and completed one week of the course when he had to be removed because of a special matter which arose. Accordingly, Mr. Murphy will attend the second week of the In-Service Class beginning September 23rd. He will be in the class September 30, October 1, 2, 3 and 4.

During the summer I have attended on several occasions a VBible Class at Trinity Methodist Church in Alexandria, Virginia. Various people have conducted the class, including the Minister and other capable people. Last Sunday the above employee, who incidentally is quite active in the Trinity Methodist Church, was the teacher and I think it should be made a matter of record that Mr. Stukenbroeker performed in a definitely superior manner. He not only knew his subject but did a masterful job in putting it over to the class. Frankly, his presentation was far superior to that of anyone I had heard before, including the Minister, and I think there is no doubt that Mr. Stukenbroeker very capably represents the Bureau when appearing before groups as a speaker.

On Sunday, October 20, 1957, SA Fern C. Stukenbroeker of the Crime Records Section delivered the sermon at both of the morning services at the Trinity Methodist Church, Alexandria, Virginia. This was part of the observance of Laymen's Day throughout the Methodist Church. Outstanding laymen are selected to deliver the Gospel on this occasion and it is indeed an honor to be so selected. SA Stukenbroeker has long been an active leader in the religious life of his church.

The program for the services reports biographical data concerning Mr. Stukenbroeker, including his connection with the FBI. SA Stukenbroeker chose as his topic "My Father's Business." It has been called to my attention by several sources that SA Stukenbroeker delivered an inspiring message which reflected great credit both upon himself personally and the FBI as well. He exhibited a scholarly knowledge of his topic which was most effectively presented to the congregation.

Mr. Stukenbroeker has long been an outstanding research worker and writer in this section, and the comments received at this time are typical of what we have come to expect regarding his work.

## RECOMMENDATION:

That SA Stukenbroeker be commended for this activity which reflected great credit on the FBI.

#### Dear Mr. Stukenbroeker:

It has been brought to my attention that you were delected as an outstanding layman of your church to deliver both morning sermons in observance of Laymen's Day at the Trinity Methodist Church, Alexandria, Virginia, on October 20, 1957. It was indeed an honor for you to have been so selected.

You effectively delivered an inspiring mes sage which reflected great credit upon both you and the Eureau. You should entertain a feeling of consummate prido for your impressive performance. Mir. SUBJECT: "COMMUNISM IN THE UNITED STATES"

In connection with the book project I wish to set forth the following brief resume of various people in the Bureau who have been of primary assistance.

- 1. Fern C. Stukenbroeker, assigned to the Crime Records Section, has worked exceedingly hard on the book and did most of the first draft in 1954, which I later tried to work into final form and was subsequently worked over by Bill Nichols. Mr. Stukenbroeker did considerable of the revision work which I also worked over as did Bill Nichols. Stukenbroeker knows the most of the book and, when the galley proofs are received, he should have the responsibility of checking them with whatever assistance he needs. He should also have the responsibility for the preparation of the index. I think it would be well at this time to commend Stukenbroeker for his assistance.
- 2. William C. Sullivan, prior to our taking over the project, conducted considerable research which was later used as a basis in the preparation of the book. He has generously provided research material, offered his criticisms, and next to Stukenbroeker has rendered the greatest amount of service. I think he should now be commended for his assistance on the book.
- 3. Supervisor Herman Bly of the Domestic Intelligence Division was of considerable assistance in making suggestions, providing research material, and in reading the manuscript. He has been most enthusiastic in his assistance. I think he should be commended at this time.

4. Supervisors Karl Brouse and Ralph Miles of the Domestic Intelligence Division, after we had completed the manuscript, conducted an independent check of all facts contained therein against original source. They did an excellent job and I think both should be commended.
5. Special Agent of the Crime Records Section did the first rechecking job of the manuscript against original source material for accuracy. His performance was excellent. I think he should now be commended.
6. There were others who assisted in the Crime Records Section, including Special Agents Gordon Malmfeldt, and In addition, Mr. Jones carefully reviewed the manuscript and made several excellent suggestions. I think one letter should go to Jones for the assistance of the entire section.
7 of Crime Records has been assisting Mr. Stukenbroeker on this project since last April, checking files, get- ting material together, conducting research, and keeping track of exhibits and documentary material. Her work has been invaluable. I think she should be commended. She did an excellent job on the Whitehead book "The FBI Story," which stood her in good stead on this book.
8 of the Crime Records Section rendered considerable assistance in the proofreading, sequencing of pages, and getting the mechanical details in order. I think she should be commended.
9. of the Bureau Library aided in running down pamphlets and books, public source material, and in securing books from the Department Library, as well as from the Congressional Library. I think she should be commended.

Memorandum to Mr. Tolson

October 23, 1957

- 15. In addition to letters of commendation for those whom I have recommended above, I would recommend that the names of all people set forth in this memorandum be designated to receive an autographed copy of the book once it is published. I think they should be among the first to receive autographed copies of the book.
- 16. In addition to the above, Messrs. Boardman and Belmont also read the manuscript. Mr. Belmont made several suggestions to me personally. I think it would be nice to send both of them a thank-you note, as well as an autographed copy of the book once it is published.

RE: SA Fern C. Stukenbroeker (type or print plainly)

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

FERN C. STUKENBROEKER Special Agent EOD 11-16-42 GS-14, \$11,180

### PART I GENERAL COMMENTS

Special Agent Stukenbroeker is of medium build, has a favorable appearance and an exceedingly fine personality. During the past year he continued to engage in general research matters, particularly with regard to communism. He is very well versed in this field and has a good knowledge of over-all Bureau policies. He is an expert in the use of English and uses a great deal of originality and initiative. He is fully qualified to handle research work on practically any topic in the Crime Records Section.

Under date of October 24, 1957, Mr. Stukenbroeker was commended by the Director in connection with his presenting two morning sermons on October 20th at the church he attends. It was indicated that he effectively delivered an inspiring message which reflected "great credit upon both you and the Bureau."

On November 8, 1957, Mr. Stukenbroeker was commended in connection with a manuscript prepared on communism in the United States.

### PART II SPECIFIC COMMENTS

1. Justification for Any Minus Ratings Given

N. A.

2. Experience and Ability as Inspector's Aide

Agent Stukenbroeker had no opportunity to participate in inspection work during the year though he is fully qualified in this regard.

3. Participation in Informant Programs

N. A.

4. Testifying Experience and Ability

N. A.

5. Disciplinary Action

N. A.

6. Accounting Information

N. A.

7. Police Instruction

N: A.

8. Sound Training

N. A.

9. Resident Agents

N. A.

10. Foreign Language Ability

N. A.

11. Current Suitability for Administrative Advancement

This Special Agent is interested in advancement in the Bureau's service. He is, however, an expert in the research field and it is felt that in view of this situation it would be to the Bureau's advantage for his advancement to be confined to the Seat of Government at the present time. It is my belief that Mr. Stukenbroeker should not be considered for an Assistant SAC assignment. He is strictly a research man and is not believed qualified to be an Assistant SAC.

Mr. F. C. Stukenbroeker Federal Bureau of Investigation Washington, D. C.

Dear Mr. Stukenbrocker:

Mr. Tolson has advised me of your helpfulness in preparing a draft of remarks for possible use by the Attorney General at the FBI National Academy graduation next week.

I want to commend you for the very capable manner in which you carried out this assignment.

Sincerely yours,

J. Edgar Hoover

Memorandum to Mr. Mohr
Re: Fern C. Stukenbroeker

I ncentive Awards Matter

b6 b7C

During past 18 months he has handled especially complex and prolonged projects encompassing a vast amount of research; sifting literally thousands of documents to obtain pertinent material; selecting appropriate material; arranging it in proper, logical, effective order; checking the material against every possible source and documenting it extensively; combining all the material into an integrated, informative, documentary presentation of great value to personnel of the FBI, other Government agencies, and the general public. He has displayed exceptional accuracy, judgment, and ingenuity in his work.

Time factors have presented additional difficulties in Mr. Stukenbroeker's work. During the last summer he cut short a vacation trip with his family to return and handle an aspect of a project which had suddenly arisen and required his astute and expeditious handling. On many occasions he has received assignments with instructions that they be completed within extremely short deadlines. He has met these deadlines but in no instance has the quality of his work been impaired. He spends a tremendous amount of time at home working on his official assignments, and during the last half of 1957 his daily average overtime was 2'51" as compared to the section average of 2'20".

A large portion of information assembled and examined by SA Stukenbroeker has been or will be used by FBI officials in policy statements and widely disseminated as of great practical value in preserving and furthering public welfare against crime and subversion. The extent and value of data produced through his creative efforts have far surpassed any similar previous performance by FBI employees engaged in similar work. Through his inidiligent application to his assignments, coupled with a personal zeal to advance the prestige and worth of the Bureau's work in the internal security field, SA Stukenbroeker has through his own initiative accumulated such a practical knowledge concerning the tactics and ideclogies of subversive forces that he has been able to serve as an invaluable source of information on this theme for fellow workers in his own section and in various positions at headquarters.

During past 18 months has been clerical assistant to SA Stukenbroeker, engaged in conducting a very extensive amount of research in connection with special projects of complex and prolonged nature dealing with the Bureau's responsibilities in the fields of crime and subversion. Her duties have involved the screening of literally thousands of documents and sources in order to obtain and present to her supervisor the necessary data for his research. She has demonstrated an above-average

performance in her ability to carry out this screening operation, in exercising judgment and making evaluatins as to what data was needed and what should be discarded, selecting illustrative items, and following the necessary data back to original sources and verifying it. She operates with a minimum of supervision. It is not necessary to give her specific instructions since she knows just what to do, goes ahead with her assignments, and always uses excellent judgment. She operates with maximum speed and accuracy, which is west most essential in this type of work.

possesses a highly retentive memory for facts, names, dates, and sources and on numerous occasions has provided information from her personal store of knowledge which she has assimilated that otherwise would have required time-consuming efforts to procure. She has devised new methods for obtaining necessary documents as quickly as possible and has been most effective in her contacts within and outside the Bureau. She has gone beyond the requirements of her position and has demonstrated unusual initiative in her work. She has operated extremely well under pressure and trying conditions. She is an extremely rapid worker who is also exceptionally accurate. She has always placed the best interests of the Bureau above her personal convenience and has worked steadily and conscientiously without allowing herself to be distracted. Although she has received compensatory leave for much of the overtime which she has put in, her overtime constituted a considerable sacrifice in that it was at unusual hours, including very late night and week-end assignments and frequently on short notice which necessitated changing her plans.

Mr. Fern C. Stukenbroeker Federal Bureau of Investigation Washington, D. C.

Dear Mr. Stukenbroeker:

It gives me great pleasure to inform you that I have approved an incentive award for you in view of the exceptionally fine manner in which you have carried out your duties over an extended period of time relative to research and analysis work in criminal and internal security matters. There is enclosed a check in the amount of \$246.00, which represents an award of \$300.00 less withholding tax.

I realize that your assignments have required prolonged and exhaustive research into problems and programs pertinent to the many responsibilities of the Bureau.

You have exercised superb judgment, accuracy and ingenuity in the handling and presentation of various aspects of the many policy considerations dealt with in matters of this nature. Through diligent application to your tasks you have achieved unusual results, which are a credit to you and to the Bureau.

Many thanks for your highly capable performance.

has the outstanding ability to correlate these research findings and express the results in concise and precise treatise form for the consideration and official use of Bureau authorities.

In the past 18 months he has handled especially complex and prolonged projects encompassing a vast amount of research; sifting literally thousands of 1 documents to obtain pertinent material; selecting appropriate material; arranging it in proper, logical, effective order; checking the material against every possible source and documenting it extensively; combining all of the material into an integrated, informative documentary presentation of great value to personnel of the FBI, other Government agencies, and the general public. In carrying out these duties, his performance has continued during the entire period to be above average as to the decisions made in selecting material, the accuracy of the countless checks which had to be made, the facility of explanation and presentation of the material. Stukenbrocker exercised unusually good judgment in evaluating the voluminous material which was screened and in making decisions as to what was pertinent and how it could best be used. He exercised above-average ingenuity in locating pertinent data to illustrate and support various points. He displayed exceptional judgment in the handling and presentation of various aspects of the many policy considerations dealt with in his assignments.

In carrying out his duties, Stukenbroeker has overcome a large number of unusual difficulties. The scope of these difficulties as well as the extent of the voluminous research involved in his work can be seen in a breakdown of one of his projects. One difficulty was in screening the vast amount of raw information contained in FBI files, public documents, books, pamphlets, and other records. For example, an estimated 5,000 specific sources of the above types were examined in connection with one project, each source containing a large amount of information which had to be considered and either used or discarded. Another unusual difficulty was in providing appropriate documentation for the large amount of data actually used. As an example, 809 documentation entries were made from 938 sources, and many of these sources were used more than once. This documentation and the checking of all the facts in connection with the research project necessitated extreme care and accuracy and exceedingly close attention to detail. It was also necessary to set up an extensive system for following and maintaining all the facts and information pertaining to the documentation and, in fact, all the information used whether specifically documented or not. It was further necessary to completely index the vast amount of information used, referencing and cross-referencing all vital data so that it would be immediately available to those using the research for practical purposes later. This indexing of each bit of vital information to the proper reference place was an involved, complicated process requiring extreme care, completeness and accuracy. A further difficulty was insuring the final accuracy of all the information included, involving the repeated proofreading of some estimated 138,000 words. It was necessary that each fact, date, place, name, and even punctuation, etc., be absolutely accurate in the end.

During the past year, the time factor presented additional difficulties. For example, last summer Stukenbroeker cut short a vacation trip with his family through the Midwest to return early and handle one aspect of a project which had suddenly arisen and required expeditious handling. More recently, various phases of his work have required extremely quick and accurate handling on almost a daily basis, with large volumes of material needing checking in a very short time. This has been accomplished in each instance in a minimum amount of time with very exacting accuracy. On many occasions it has required great personal sacrifice and effort on the part of Stukenbroeker to meet the existing deadlines. In addition to the large amount of time which he spent at home on his work, he has put in a considerable amount of overtime in order to get the job done. During the last half of 1957, Stukenbroeker averaged 2 hours, 51 minutes daily overtime as compared with a section average of 2 hours, 20 minutes. In 3 of these same 6 months, his daily overtime average was well above 3 hours.)

A large part of the information assembled and examined by Stukenbroeker has been or will be used by FBI officials in policy statements and widely disseminated as of great practical value in preserving and furthering public welfare against crime and subversion. The extent and value of the data produced through his creative effort have far surpassed any similar previous performance by FBI employees engaged in similar work.

Stukenbroeker has carried out his assignments with a very minimum of supervision, and the high quality of his work is further attested to by the fact that the great amount of data he has turned out has been found to be extremely accurate, appropriate and effectively presented with a need for only the barest minimum of suggested changes by superiors. He has repeatedly demonstrated that he can be counted on to get out the work on time and fulfill all of his assignments with an enthusiastic approach and desire to further the best interests of the Bureau. On every occasion he has entirely disregarded his own personal convenience in order to carry out his assigned duties. He has brought to his assignments an extensive knowledge of research methods, good judgment, literary ability, and knowledge of policy which were made possible by his educational and Bureau background, and his determination to do a good job.

Despite the difficulties of meeting close deadlines in expedite matters, and in the face of overcoming obstacles in searching for, analyzing, evaluating and interpreting voluminous detailed data on his research subjects, the work performance and results of Stukenbroeker during the past 18 months particularly have been of outstanding caliber and there has been no instance when he received any official criticism.

Through diligent application to his assignments, coupled with a personal zeal to advance the prestige and worth of the Bureau's work in the internal security field, Stukenbroeker has through his own initiative accumulated such a practical knowledge concerning the tactics and ideologies of subversive forces that he has been able to serve as an invaluable source of information on this theme for fellow workers in his own section and in various positions at Bureau Headquarters.

I interviewed Mr. Stukenbroeker on 8/7/58, to ascertain his qualifications for further administrative advancement. He presents a very good personal appearance, has a very pleasing personality, converses very intelligently and, I believe, makes a very good Bureau representative. Mr. Stukenbroeker is an approved Bureau speaker and has successfully handled speaking engagements. His over-all service record is decidedly above average and he is currently rated excellent. No recent administrative action has been taken against him; however, he has received a number of commendations and an incentive award in connection with his official assignments.

Mr. Stukenbroeker advised me that he is completely available for any assignment the Bureau feels he is qualified for and is extremely anxious to advance as far as he can in the service. He felt the Bureau's program of assigning Supervisors to inspection duties was a worth-while project and would certainly be beneficial to anyone aspiring to become a field executive. He indicated that he would enjoy an assignment to the field in an executive capacity and felt he could handle all of the duties in a satisfactory manner. He also pointed out that he was very much interested in his current assignment due to the challenging nature of his assignment.

The Director saw Mr. Stukenbroeker on 7/18/50, and stated that he made an excellent personal appearance and seemed to be intensely interested in his work and the Director said he would rate him as excellent. At that time the Director commended him for his excellent and outstanding work in the preparation of material and data for use in speeches and articles. Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. DATE: September 18, 1958

Tele. Room

In view of the pending work situation in the Crime Records Holloman Gandy Section it is felt that the In-Service training for the above-mentioned Special Agent, which is scheduled to commence September 22, 1958, should be cancelled and that this Special Agent should be rescheduled next year.

As you know, Mr. Stukenbroeker at the present time is working on a very comprehensive article in connection with the Father Walsh Memorial Celebration at Catholic University. While we have attempted to keep him free of other projects, this has just not been possible in view of the shortage of manpower. It is imperative that this particular item be completed just as soon as possible.

Walsh which later will be published and (2) to participate on October 13, 1958, in ceremonies on the Georgetown University campus dedicating the new Edmund A. Walsh building. At that time, a brief extract of the longer paper was to be read as part of the symposium. You will further recall that Inspector William C. At that time, Inspector Sullivan was not allowed by Benjamin Cohen, moderator of the symposium, to deliver the extract of the Director's paper. As a result, Mr. Hoover forwarded to Georgetown University a letter indicating that he felt, in view of the refusal to allow Inspector Sullivan to participate, that he (Director) should not forward the desired longer paper. Subsequently, seletter was received from Father Stephen X. ## Office Memorandum · UNITED STATES GOVERNMENT

To: Mr. Tolson

DATE: 12/9/58

PROM : G. A. Nease

SUBJECT:

n' 1 -

With reference to your memorandum yesterday concerning of Holloman the brief prepared in the Records and Communications Division on the Fred J. Cook article and the Director's notation appearing thereon, I should like for the Director and you to know that I, and those persons responsible for the preparation of the brief, are deeply concerned that it does not meet the standards you expected. Such shortcomings as may be noted resulted from a question of judgment and I can most sincerely state not from a lack of interest. It is respectfully requested that we be given the opportunity to clarify any defects in the brief and put it in such shape that it will meet every requirement.

As to the Director's inquiry "Just who handled the atrocious job in attempting to analyze the Nation article," aside from chapter 8 which was prepared by the Investigative Division, and chapter 9 by the Domestic Intelligence Division, this analysis was handled in the Crime Records Section. The bulk of the project was prepared by SA stukenbroeker, Hoxie and Gunn. However, in view of the scope of the project and the workload of the section, there are various other supervisors who assisted from time to time.

Concerning an index, this brief should, of course, have one and one is being prepared. In order to meet my deadline, the brief in its present form was sent to my office Friday evening and copies sent to Messrs. Belmont, Index and Sullivan for review and any suggested changes. At the time the brief was given to you, such suggestions had not been received. In discussing the matter with the persons involved, it was pointed out that they felt a complete index could not be prepared until the analysis was completed and any suggested changes made. Nevertheless, work was begun on an index yesterday morning prior to the time you spoke to me concerning the matter. At that time, I was not aware that the index was actually in progress.

As to the worthiness and usefulness of the over-all brief, we feel that it does its job in exposing Cook as a prevaricating character assaish and virtual intellectual prostitute and specific points of inaccuracies are set forth.

As to the Harry Brunette case, there is, of course, on hand and available much more data on this topic than is included in the brief. In order

to keep the brief in workable length each item or instance was separately evaluated for pertinence and proportionate space allowance. Chapter 6 of the article in which the Brunette case is dealt with, is entitled "A Question of Credit," the theme being that the Bureau hogs publicity. The Brunette case is one of a series mentioned and throughout the chapter we attempted to show the folly of Cook's statements. I do think, however, that the items dealt with in this chapter were perhaps briefed down too much and I find that this is the last chapter prepared and it was kept concise in order to meet my deadline on the brief.

In the analysis, we went behind the data Cook had taken from Lowenthal. This was done by extensively utilizing the mammoth analysis made of the Lowenthal book when it was published. In this way we found out where Lowenthal was wrong and hence Cook was wrong. We likewise checked independent sources such as: Bureau files, congressional hearings and "Congressional Record," books, magazines, Annual Reports of the Department of Justice, Appropriations Testimony, newspaper clippings, New York Times Index, statements and speeches by the Director, articles and books by the Director, Uniform Crime Reports bulletins, and FBI Law Enforcement Bulletins

In addition, we utilized the full facilities of the Bureau, the Department of Justice, and the Congressional Library.

In conclusion, again I respectfully request the opportunity to complete this brief in a manner that will meet with the full approval of the Director and you. You may be assured that sufficient people will be assigned to this project to see that it is completed by the end of this week.

fice Memorandum . UNITED STATES GOVERNMENT MR. TOLSON DATE: February 5, 1959 G. A. NEASE FROM: SUBJECT: **STUKENBROEKER** Special Agent W.C. Sullivan EOD 11-16-42 Tele. Room Holloman GS-14 \$12,555 Assigned Crime Records Division For record purposes, I would like to record the fact that I have been most favorably impressed with Mr. Stukenbroeker's all-around performance during the time he has been under my supervision. I consider du Mr. Stukenbroeker to have a brilliant mind. He is a most competent researcher and a very capable writer. His approach to his assignments is always most logical and his product is of the best. Although Mr. Stukenbrocker might be described as somewhat academic in manner and appearance, I do know he makes a most excellent impression when appearing before an audience. I have, for a period of time, attended a Sunday School Class at the Trinity Methodist Church, which class Mr. Stukenbroeker teaches. He handles himself extremely well and does an excellent job in this capacity. He is uniformly well liked and respected and is considered by all who attend the class to be well above average in intelligence. 1. 1-Mr. Mohr 1-Mr. Jones GAN:jmr(

#### INSPECTOR IN CHARGE NEASE:

This write-up is being prepared due to the inspection of the Crime Records Section. This Special Agent is a real scholar and his work is invaluable in the Crime Records Section. He is used on general research matters of all types. Stukenbroeker can always be depended upon to do a far above-average job regardless of how technical and involved the project may be. He was commended May 29, 1958, on the preparation of remarks for possible use by the Attorney General at the FBI National Academy graduation. Under date of June 18, 1958, he was given an incentive award for the exceptionally fine manner in which he performed his duties over an extended period of time with regard to criminal and internal security matters. This man is most valuable indeed.

Rating: Excellent

INSPECTOR JOHN F. MALONE: Special Agent Stukenbroeker presents a favorable personal appearance

and gives an excellent impression as regards his knowledge of the research matters and writing assignments to which he is assigned and may be considered a research specialist. He exhibits a pleasing personality and goes about his assignments with assurance and accuracy. He states he is available for general and special assignments and is desirous of administrative advancement in the Bureau.

#### RECOMMENDATION:

That Special Agent Stukenbroeker be continued in his present assignment.

SUBJECT:

SMEAR CAMPAIGN - 1958 EDWARD J. MOWERY SERIES **NEWHOUSE NEWSPAPERS** 

For the Director's information, there is attached a layout of the complete Edward J. Mowery series as it appeared in the Newark, New Jersey, Star-Ledger beginning February 1, 1959. As you will notice, this is an excellent layout by the newspaper providing the Bureau extensive coverage to combat the current smear campaign. In addition, it will be noted that the series is characterized not only by the extensive amount of space allotted to it by the newspaper but also the headlines given it as well as accompanying illustrations. For the Director's information, a layout of the same series as it appeared in the Long; Island, New York, Sunday and Daily Press is included.

The series as published herein was, of course, carried by the Newhouse Chain to date with the exception of the Syracuse, New York, and Portland, Oregon, papers. Daily circulation was approximately two million copies throughout the United States with the exception of the Far West. I have arranged for the American Legion to reprint the series in pamphlet form and disseminate it to 20,000 of the Legion's members who are employed in industry, education and religion.

It is felt the attached layout could very effectively be used in our In-Service lectures in talking about the current smear campaign. Agents attending In-Service have asked questions about the smear campaign and this layout would show them how the Bureau has combated these malicious charges.

We is suggested that letters of commendation be prepared for Special Agent Robert E Wick and Special Agent Fern C Stukenbroeker. Mr. Wick did the bulk of the work on the series while Stukenbrocker did a great deal of research in connection with the series.

#### PART I GENERAL COMMENTS

Special Agent Stukenbroeker is of medium size, has a good personality and a fine personal appearance.

During the year this Special Agent continued his assignment in the Research Unit of this section. He is an expert in all types of research and is a master in original writing.

To illustrate, it should be noted that he received an Incentive Award on June 18, 1958. Previously, on May 29, 1958, he was commended because of the excellence of certain material he prepared for transmittal to the Attorney General.

On November 17, 1958, he was again commended for his fine job in preparing certain material for the Director. A similar commendation was received under date of February 20, 1959, in connection with extensive research which this Special Agent prepared.

This Special Agent has been utilized during the year on a number of speaking engagements and demonstrates a great deal of ability in this regard. In fact, during the year a number of very favorable comments were received due to the fine manner in which this supervisor handles himself on his feet.

#### COMMENDATION MATTERS

In connection with the Director's speech 6-16-59 at Morris Harvey College, I would like to take cognizance of the outstanding work done by a number of people.

The research for the speech was originally assigned to SA's Charles E. Moore, Jr., and Herbert E. Hoxie. All of the original planning and research was done by them. SA Moore, in particular, spent long hours on the speech in the initial stages, and just before he had to leave the city on the National Geographic Magazine project, he spent an entire week end at home (April 5-5) working up the initial material for the speech. He and SA Hoxie had it typed the following week and did all of the proofreading, checking of facts and documentation on the original draft. After SA Moore left, SA Hoxie stayed with the project throughout, working closely on a day-by-day basis with the Central Research Section when it was decided to consolidate the suggested material with that which they had written. SA Hoxie followed and coordinated the project to the end, and in the final stages on Friday, June 12, he supervised the typing of the final proposed draft, arranged for the preparation of Plastiplates and the printing of the speech, and worked until after 10:30 p. m. in order to get it finished that night.

After SA's Hoxle and Moore had completed the first draft of suggested material, extensive rewriting, editing, and polishing were handled by SA Fern C. Stukenbroeker. He then worked also with the Central Research Section in the consolidation and stayed on the project up until the end. On Friday, June 12, he stayed until 10:35 p.m. despite the fact that his extended annual leave had begun at 5:30 p.m. and his family was waiting for him to leave town. He did excellent work on the final stages of the speech, at considerable sacrifice of his own and his family's convenience.

When it was decided to consolidate the speech material with the work of the Central Research Section, SA Lawrence J. Heim was called upon to coordinate the consolidation, and he worked on this phase of the speech very closely for an entire week. Then on Monday, June, 8, it was necessary to mechanically reproduce the entire speech in a short time after the Director had furnished his draft.

#### M. A. Jones to Mr. DeLoach memorandum

SA Heim then handled the speech, supervised the retyping of this draft and, as he had done on other occasions in connection with the speech, he put in long hours to get it done the same day, staying until 9:25 p.m.

We also received good cooperation from the personnel of the Central Research Section. Some of their work was done during immediate personal contact with us, but they handled other phases of the speech separately. Inspector W. C. Sullivan has recommended commendation for various employees of his section by separate memorandum.

#### RECOMMENDATION:

That SA's Herbert E. Hoxle, Charles E. Moore, Jr., Fern C. Stukenbrocker, Lawrence J. Heim be commended for the outstanding manner in which they carried out their assignments in connection with this project.

Office Memorandum. UNITED STATES GOVERNMENT DATE: November 17, 1959 Mr. DeLoach FROM. IN-SERVICE TRAINING SCHEDULE SUBJECT: CRIME RESEARCH SECTION W.C. Sullivan Tele. Room Holloman As you know, all of the Special Agent replacements for this Section have not as yet arrived and at the present time we have a number of pending research projects. Accordingly, it is suggested that the Security In-Service Training for SA Fern & Stukenbroeker which is scheduled for November 23 be canceled for the present time and rescheduled after the first of the year. It will be recalled that SA will still be in In-Service on the 23rd. b7C RECOMMENDATION: That SA Stukenbroeker's In-Service Training for November 23 be canceled and rescheduled later. 1 - Mr. Mohr MAJ:ijj

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. Dear		

Your letter of November 26, 1959, to Mr. Stukenbroeker, has been brought to my attention, and we certainly appreciate your gracious invitation for him to address your Kiwanis Club.

While he is most grateful for your kind request, he does not contemplate a trip through your general area in the near future, and the current pressure of official matters confronting him precludes an acceptance. I am indeed sorry this situation exists, and I do hope you can understand the difficulties involved.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

# Law Erforcement Office's Pledge

- 1- BE READY to serve the public faithfully and fearlessly 24 hours a day.
- 2- UPHOLD the rights of every individual within the law.
- **3-** STRIVE diligently to secure the evidence to free the innocent as well as convict the guilty.
- **4-** HONOR his badge--never tarnish it with personal misconduct, on or off duty.
- **5-** BE COURTEOUS and FRIENDLY—for most citizens the only contact with law enforcement is to report or seek information.
- **6-** AVOID favoritism-- race, creed, and influence have no place on the scales of justice.
- **7-** ACT as a model to youth--help youngsters to be good citizens.
- **8-** KEEP in good physical condition. A healthy body and mind mean better work.
- **9-** LEARN MORE about the law enforcement profession--acquiring knowledge is a never-ending process.
- 10- BE LOYAL to self, organization, country and God.

Mr. Fern C. Stukenbroeker Federal Bureau of Investigation Washington, D. C.

Dear Mr. Stukenbroeker:

I am writing to express my appreciation for the unusually fine work you did in preparing the Law Enforcement Officer's Pledge Poster.

This is a highly effective poster and the widespread and enthusiastic response it has received has been most gratifying to note and a credit to your ability and competence in handling assignments of this nature. The prestige of the Bureau has definitely been enhanced as a result of your efforts in this regard and it is certainly a pleasure to commend you.

FERN C. STUKENBROEKER Special Agent EOD 11-16-42 GS-14, \$12,555

### PART I GENERAL COMMENTS

This Special Agent is of medium size, has a favorable personal appearance and is always neatly dressed. He is congenial and has the type of personality which grows on one the longer you know him.

During the rating period this Special Agent devoted full time to research work. He is an authority on communism and related matters and has been particularly valuable in this regard.

This Special Agent is being used more and more for speeches before major groups throughout the country. Several weeks ago, he delivered 2 addresses before college groups in Georgia and numerous letters have been received commenting on his outstanding performance. In fact, as a result of this speech, requests were received for comprehensive tapes on the subjects of the FBI and communism which will be distributed to Georgia schools. These tapes under the Director's name have been furnished. Several speeches before major groups by this Special Agent are pending at the present time.

This Agent's fine work during the year was recognized on several occasions. On June 25, 1959, for example, he was commended for his excellent contributions in the preparation of certain urgent material needed by the Director.

A similar commendation was sent to this Agent on March 11 taking note of his unusually fine work in the preparation of a poster which has been disseminated to law enforcement throughout the entire country.

This Special Agent continues to be most valuable in the research work of the Section, and based on his over-all performance, I feel he is entitled to a rating of "Excellent" in grade GS-14.

Mr. Fern C-Stukenbroeker **Federal Bureau of Investigation** Washington, D. C.

Dear Mr. Stukenbroeker:

I am especially pleased to commend you for the excellent research you conducted in connection with an article entitled "The Federal Bureau of Investigation: The Protector of Civil Liberties" which appears in the August, 1960, issue of the American Bar Association Journal.

You exhibited splendid skill and resourcefulness in handling this matter and you'rd efforts should prove to be most beneficial to the ablu - 1 Bureau. Your services were a distinct credit-toyou and I do not want the opportunity to pass without expressing my appreciation.

Sincerely yours, MALLED 9 NG1 8 1960

RE: SA Fern C. Stukenbroeker

(Type or print plainly)

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

Dear Mr. Hoover:

app

As you may know, your associate, Fern C. Stukenbroeker, spoke before the 11th Annual Midwest College Placement Association convention which met in the Twin Cities last week. The convention theme was developed around "the organization man" concept. We wanted very much to climax the three day meeting with a final speaker who would "be a capper" - hence our thought of your organization. Dr. Stukenbroeker did an outstanding job of clearly showing how one can be a dedicated member of a dedicated "organization" and at the same time (must) develop the qualities which are the hallmark of the individual - sound judgment, initiative, creativity, etc.

Discounting my selfish point of view as and as one who grew up in St. Paul in the mid-thirties with a great deal of admiration for the FBI, the reception by the delegates of Dr. Stukenbroeker's remarks couldn't have been more enthusiastic.

Let me say that we feel a deep sense of gratitude for what you have done for our "organization."

Very truly yours,

cgs

Dear Mr. Stukenbrocker:

I am writing to commend you for the cuporior manner in which you represented the Eureau on Ceptember 14, 1960, at the eleventh annual convention of the Midwest College Placement Association in Minneapolis, Minnesota.

Your address before this group was most effective and was very well received by those in attendance. A great deal of time and effort went into the preparation of your manuscript and, thereafter, into its presentation and I want you to know I am most appreciative.

# Team Man's Big Need? Initiative

The "organization man" initiative as an individual to be truly valuable to his organization; industrial re-

The view was expressed by Dr. F. C. Stukenbroeker, special assistant to J. Edgar Hoover, chief of the federal bureau of investigation.

Stukenbroeker spoke today's session of the Midwest College placement association on the topic, "My Organization and the Man.

The FBI, he said, represents a type of organization where both teamwork and one-man initiative are at a premium.

He described the co-ordination effort that often involves all of the agency's 54 field offices in solution of even a minor case.

The FBI official also told of incentive awards which have been established in government agencies and said these are an effort to encourage initiative just as is done in private businesses.

Other government officials attending the convention at Pick-Nicollet hotel also said federal government recruit-ing of personnel is moving to be fully competitive with industry.

"The government has the same problems, and often accentuated, in hiring engineers and physicists today," said Andrew E. Comerford, recruiting representative for the Ninth civil service district, with headquarters at St. Louis, Mo.

Comerford said the internal revenue service has found it difficult to hire tax accountants.

"One of the chief attractions of federal work," he said, "is the unique experi-

ence available to such people; as tax accountants or scientific researchers who have the finest laboratory available in government."

This, however, has not always equalized the more attractive salaries of industry, Comerford indicated, but a recent 7½ per cent federal must retain a high degree of pay increase was expected to take up most of the slack.

The conference wound up with Donald Hunt of the University of Detroit replaccruiting officials were told ing Chester E. Peters of today by a teamwork special- Kansas State as president and the 1961 convention set for Mackinac Island, Mich.

SUBJECT:

SA FERN C. STUKENBROEKER

IN-SERVICE TRAINING

The above mentioned Special Agent assigned to this Section is, as you know, scheduled for in-service training on October 31, 1960. It so happens that SA Stukenbroeker has speeches scheduled in Brownwood, Texas on November 4 and 5. In view of this situation which will make it impossible for Stukenbroeker to attend the full in-service training period and in view of the further fact that we are very heavily loaded at the present time on detailed research projects for which this particular Agent is particularly well qualified, it is felt desirable to defer his in-servicetraining for the time being.

### RECOMMENDATION:

In view of the above situation, it is recommended that this Special Agent's in-service be deferred and rescheduled after the first of the year.

Please be advised that SA FERN C. STUKENBROEKER made the requested speech on Oct. 27, 1960. The speech was made before a packed auditorium and was enthusiastically received. I thought the Bureau would be interested in knowing that very favorable comments have been received to date concerning his speech. He made a fine appearance, had a full and detailed knowledge of his subject and demonstrated an appropriate amount of enthusiasm in the delivery of the speech. Much credit has come to the Bureau as a result of his appearance.

Dear Mr. Stukenbrocker:

There was a completely unreasonable delay in the handling of a communication from the Detroit Division dated October 7, 1900, regarding a survey of certain college officials and inquiry has disclosed that you were in large measure responsible for this delinquency. You had no satistic factory explanation in this instance and you were definitely at fault in your handling of the mail in question.

In view of this, you should make certain that in the future you carry out your assignments promptly and efficiently so that no occasion will arise to call a similar dereliction to your attention.

Dear Mr. Koover:

I would like to take this opportunity of thanking you very sincerely, for sending Special Agent Fern C. Stukenbroeker to car Western Conference of the Veterans of Foreign Wars.

He did an outstanding job, was very well received and

I'd like to add, he has a fine sense of humor

I imagine that very few people come into direct contact with representatives of the Federal Bureau of Investigation. I feel sure that Mr. Stukenbrockers' appearance at our conference did much towards giving the members of our organization a electer idea of the workings of your very fire organization.

I will be attending a National Security meeting, in Washington, on December 16th and 17th. Mr. Ctukenbroeker invited me to call and visit the F.B.I. building at that time. I don't know how busy I will be kept at these meetings but, if timer permits, I will be very happy to accept the invitation.

Artached are a couple of clippings from our local paper.

on the back of the one page there is an editorial on our conference.

Again, Mr. Moover, many thanks to you and to Mr. Stakenbrocker. With kindest regards.

Please be advised that the time stamps on the incoming letter of October 7, 1960, from SAC, Detroit, under above caption reflects that the letter was received in the Director's office on October 10, 1960, and later that same day in the offices of Mr. Tolson and Mr. Mohr. On October 11, 1960, the letter was received in the office of Mr. Parsons and your office and on October 12, 1960, in the Crime Research Section.

Your office routed this item to this Section for information and, feeling that it might deal with some of our previous research on smear attacks by colleges, it was routed to SA Fern C. Stukenbroeker of this Section with a note that he should contact me on it. SA Stukenbroeker, who at the time was heavily loaded with various projects, recalls that he initially received the impression that this was an inactive piece of mail and set it aside for a few days until he had an opportunity to go over it carefully. Stukenbroeker later contacted me with regard to this letter from the field with the result that we checked files on to see whether he was friendly and a good contact of our Omaha Office. It was felt that quite possibly we might be able to identify the colleges involved and in some manner put some "heat" on them. After the file check was completed and the letter thoroughly analyzed, it was decided that it did not tie in specifically with any of our previous research and accordingly, it was continued on its routing.

Special Agent Stukenbroeker is usually most meticulous in the handling of his work. He, of course, has an outstanding Bureau record, it being noted that he has not been censured even once in the almost 18 years he has been in the Bureau. It is felt in this instance, however, that SA Stukenbroeker failed to exercise the best possible judgment in retaining this particular piece of mail an undue length of time.

Dear Mrs. Lipscomb:

I have received your letter of November 14 regarding the recent appearance of Special Agent Fern C. Stukenbroeker before the Western Conference of the Veterans of Foreigh Wars in Elko, Nevada. I am, of course, pleased that his remarks were so well received, and both he and I appreciate your kind comments and thoughtfulness in writing.

In response to your request, Mr. Stukenbroeker did not speak from a prepared text; however, I am sending some material concerning the general subject of communism which may be of help to you.

It was kind of you to extend an invitation for a representative of the FBI to speak to the meeting of your local group. I regret that the large number of similar requests and the pressure of official matters preclude our acceptance. I am sorry this situation exists but hope you will understand the difficulties involved.

Gentlemen:

Recently when I accompanied my husband to the Western Conference of the Veterans of Foreign Wars, at Elko Nevada, I heard a most inspiring talk given to the group by Fern C. Stukenbroeker, on the communist threat to our nation. He was a very forceful and wonderful speaker on this subject. It is just to bad more people can not hear this threat. My husband and I have been fighting, and trying to tell our V.F.W. & Auxiliary members when we both were Department officers.

Now, I would like to know if by chance he had anything written down and if so I could obtain it for a Toastmistress speech, or if you have anything which could be used for this urpose at any time to alert the people more. I belong to the local Toastmistress Club, Oracle, and have always given something along this line.

Also, is it possible through our local office to obtain a speaker to attend our V.F.W meetings some time in the future, and give us a stir-up talkabout our danger. I am chairman of a Good Citizenship program and could use such a talk.

Many thanks for any help you may be able to give me.

Yours truly.

A memorandum in the matter was submitted by the Investigative Division under date of 11-4-60 (Friday) with a proposed outgoing communication dated 11-7-60 and the Director has asked why the incoming letter bounced around the Bureau for two weeks and why it took another two weeks for the Investigative Division to handle. Time stamps indicate that the Detroit letter was received in the offices of Mr. Tolson and Mr. Mohr on 10-10-60 and in the office of Mr. Parsons and Mr. DeLoach on 10-11-60. It was received in the Crime Research Section of the Crime Records Division on 10-12-60 having been routed to that section for information. Mr. M. A. Jones, Section Chief, has advised that, feeling the letter might deal with some previous research on smear attacks by colleges, it was routed to SA Stukenbroeker with a note that he should contact Jones on it. At the time, SA Stukenbroeker was heavily loaded with various projects. He recalls that he initially received the impression that it was an inactive piece of mail and set it aside for a few days until he had an opportunity to go over it carefully. Stukenbroeker later contacted Jones regarding the letter, they checked Bureau files on but ultimately decided that the matter did not tie in with any of the previous research of the Crime Research Section so the letter was continued on its routing. Section Chief Jones feels that although SA Stukenbroeker has an outstanding Bureau record, he failed in this instance to exercise the best possible judgment when he retained this mail an undue length of time and Jones recommends that SA Stukenbroeker be censured for this. Mr. DeLoach concurs. REC148 The Detroit letter of 10-7-60 was received in the Employees Security Section of the Investigative Division on 10-25-60 at which time it was noted that some of the Bureau officials to whom the Director had checked the mail had not yet seen it. Bureau files and the Detroit letter was then released so that it could be routed to the other designated officials.

A reference was located on and the file called and received in the Employees Security Section on Friday, 10-28-60. On the basis of available information concerning it was felt that although no open inquiry should be made by the Bureau due to the delicate nature of the matter, some action should be taken in an attempt to ascertain the identities of the seven schools which had indicated in the survey that they would not cooperate with the FBI, so that appropriate field offices could be alerted. The Employees Security Section again secured the Detroit letter on 11-2-60 on which date a memorandum was prepared with a proposed outgoing letter to the Omaha Division, dated 11-3-60. After it was typed certain revisions were suggested and the memorandum and letter were redictated on the morning of 11-4-60, the memorandum then being dated 11-4-60 which was Friday, and the proposed outgoing letter dated 11-7-60.

Mr. C. H. Stanley, Chief of the Employees Security Section, states that his Number One Man, SA Coleman, was responsible, in the absence of Mr. Stanley, for the appropriate handling of the matter and should have insured that it was handled more promptly, particularly since it involved a delicate matter requiring a policy decision. Mr. Stanley recommends that SA Coleman be censured and Mr. Rosen concurs.

#### RECOMMENDATIONS OF THE ADMINISTRATIVE DIVISION:

1. It is recommended that SA Stukenbroeker be censured for his delay in handling this matter.

2. That SA Coleman be censured for his failure to see that the memorandum and outgoing letter were submitted more promptly after the mail reached the Investigative Division.

Dear Captain

I have received the copy of your letter to Special Agent Fern C. Stukenbroeker relative to the address he was pleased to give in connection with your "Operation Red Pump" on January 17, 1961.

It is always a source of encouragement to learn of such generous remarks about my associates, and you may be sure that Mr. Stukenbroeker enjoyed the opportunity to be with you. I am glad that his talk was so well received, and he is most appreciative of your kind comments.

Sincerely yours,

#### OPERATION RED PUMP

## 2044TH AIRWAYS AND AIR COMMUNICATIONS SERVICE SQUADRON United States Air Force Fort Myer (South Area), Arlington 8, Virginia

January 31, 1961

Special Agent F. C. Stukenbroeker Hq, Federal Bureau of Investigation Washington, D. C.

Dear Mr. Stukenbroeker,

I would like to express to you my sincere appreciation for having accepted my invitation to appear on January 17, 1961 as a guest speaker in our lecture series of "Operation Red Pump": and expose of operational Communism.

Your lecture on the subject of "Communism and Our Youth" was authoritatively presented, enthusiastically received, and contributed greatly to the development and stature of this experimental program. It is by the voluntary participation of guest speakers that we are able to present well rounded programs to our audiences and thereby achieve our primary objective: that of, alerting and making Americans more knowledgeable as to the workings and intent of domestic and international Communism.

With best wishes and kindest personal regards, I am,

Sincerely Yours.	.•

Mr. Fern C Stukenbroeker, Special Agent Office of the Director Federal Bureau of Investigation Department of Justice Washington 25, D. C.

Dear Mr. Stukenbroeker:

It was a great pleasure meeting you last week after having spoken with you several times in the past few months. To say "thank you" seems very inadequate for the big job you did on January 9, 1961 at our meeting. Your talk was most informative and was presented in a very interesting manner. Everyone present enjoyed hearing you and your words were as seeds which were deeply planted in their minds.

Before I left the hall, many of the members congratulated me on obtaining such a "wonderful speaker" and said how very much they enjoyed every word you said. Also, I received calls during the week telling me the same thing. They said that now they feel they are a little qualified to talk on the subject of Communism and they have been telling members who were absent that they had missed the best meeting of the year. I am sure you realize the above is true because members came to you personally. Their questions showed how very much interested they are.

The complimentary remarks which you made about me were appreciated and I thank you for them.

It was very kind of you to leave your family and a warm fire-side to go out on such a cold night to speak to us. All we can say is "Thank You"!

Sincerely	yours,

Dear Mr. Stukenbroeker:

I am indeed pleased to commend you for the outstanding attitude you exhibited in reporting for duty today despite the extremely hazardous travel conditions.

You demonstrated a most exemplary devotion to the work of the FBI in considering your services so essential that, in spite of an announcement that all Federal Government agencies would be closed, you reported for duty. I certainly appreciate your dedicated efforts and I want you to know I have instructed that a copy of this letter be placed in your personnel file.

Dear

Your letter of November 23, 1960, with enclosure, which was addressed to Special Agent Fern C. Stukenbroeker, has been brought to my attention. I want you to know that both Mr. Stukenbroeker and I appreciate your remarks regarding his speeches before the Veterans of Foreign Wars. It was also kind of you to forward a copy of your Foundation's Prospectus.

As a matter of policy, representatives of this Bureau do not make comments or suggestions relating to specific programs and projects such as yours, and therefore, I regret that we are unable to be of assistance in this regard.

In response to your request I am pleased to forward, under separate cover, 50 copies each of the publications you requested, and if we can be of further service to you, please do not hesitate to call on us.

Sincerely yours.

note (continued): Builles contain no derogatory information regarding and we have had no prior correspondence with him. Builles contain no information regarding the organization with which he is associated. It is noted that correspondent indicated that a copy of his Foundation's Prospectus had also been furnished to the Director. Builles, as examined on 11-30-60, failed to indicate receipt of this Prospectus. The copy enclosed with correspondent's letter outlined the objectives of this organization, which were to grant scholarships to students in the United States and foreign countries for the purpose of promoting better international understanding. It was pointed out that the greatest danger to the United States was the complacent indifference of many Americans toward the infiliration of communism. SA Fern C. Stukenbroeker EOD 11-16-43, is in CS-14 and assigned to Crime Records Division. He spoke before the Western Conference of the Veterans of Foreign Wars at Elko, Nevada, on October 29, 1950.

Dear Mr. Stukenbroeker:

I wish to tell you again how much I enjoyed your two speeches on Communism at the Western States Conference of the Veterans of Foreign Wars held in Elko, Nevada October 28th and 29th.

You stated in your conversation with me after your speech that additional copies of the booklets you gave me were available. The Foundation would greatly appreciate receiving 50 copies each of Document #114 - Expose' of Soviet Espionage, 1960; Document #80 - Statement by J. Edgar Hoover concerning the 17th National Convention, Communist Party, U.S.A., December 10 - 13, 1959; Booklet entitled "Communist Target - Youth"; Communist Infiltration and Agitation Tactics; Communism, the Bitter Enemy of Religion; and the flier sheet named "What you can do to fight Communism and Preserve America".

Although we have sent a copy of our Prospectus and Governing Policies to Mr. Hoover, I am taking the privilege of sending you a copy for your own personal information.

If there is any other material which you feel we can use in our fight against Communism and to better the relations between the United States and those countries being wooed by Communism, we would be more than grateful to receive them.

Any constructive criticism or suggestions that you could give us concerning our program will be welcomed by the Foundation.

I hope that our paths may cross many times in the future for a very worthy cause.

Dear Sir:

On November 17, 1960 Mr. Fern C. Stukenbroeker of your office spoke in Washington to members of the Order of Knights of Pythias and the Order of Pythian Sisters, on the subject of Communism.

The hall was well filled, about 230 being present, including visitors from Pennsylvania, Maryland, and Virginia as far south as Fredericksburg and Norfolk.

Mr. Stukenbroeker spoke intelligently and forcefully, and hold the attention of his audience. His address fitted in excellently with the theme of "Know Your America" sponsored by the All-American Conference to Combat Communism, of which Conference the Order of Knights of Pythias is a member.

We thank you for making Mr. Stukenbroeker's services available to us. and we appreciate deeply the fine contribution he made in increasing our understanding of the objectives and methods of Communism.

Dear Fern:

On behalf of the Memphis Civitan Club, and personally, let me thank you for taking the time from your very busy schedule to come to Memphis and give our Club a wonderful address on "America's Answer to Communism."

During the many years I have been a member of the club, there have been innumerable special programs but none of them, in my opinion, have equaled this one in importance and significance. Perhaps as never before in the history of our nation, the freedoms we so dearly love are seriously threatened. The only defense we can raise against this threat is a positive and hard-hitting offense showing clearly and forcibly the threat facing us and the ways in which it can be met by individual citizens.

Your address at our Tuesday meeting covered this subject as completely as possible in the time allotted and was presented in an interesting, as well as an informative manner. Without exception, every person who has talked to me about the program has been highly complimentary of your remarks. You certainly did a splendid job and we feel we were extremely fortunate to have you with us on this significant occasion.

Not only did you make an outstanding contribution to the program but all of us who came to know you while you visited with us thoroughly enjoyed our personal association and we look forward to a continuing friendship in future years.

Any time you are in our area please give me a call so we can get together for lunch, dinner, etc., as well as to swap good stories.

Again, many thanks and sincere good wishes.

SUBJECT: ARTICLES BY THE DIRECTOR IN THE CURRENT ISSUES OF "THE NOTRE DAME LAWYER"

AND THE "SYRACUSE LAW REVIEW"

The "Notre Dame Lawyer," a quarterly law review in the March, 1961, issue contains an article by the Director entitled."Protecting the Innocent--Law Enforcement's Sacred Task." The "Syracuse Law Review" also has an article by the Director entitled "Cooperation: The Key to Effective Law Enforcement in America." This is the lead article and is 17 pages in length and contains a comprehensive explanation of cooperation in law enforcement to combat crime.

Both of these law reviews were recently issued and contains important messages by the Director relating to the law enforcement profession and make clear that the FBI is vitally interested in protecting civil rights of citizens as well as apprehending guilty criminals. They will receive widespread distribution in the law schools and among practicing lawyers and provide a good format for the Bureau to reach attorneys.

The research was conducted by SA Fern C. Stukenbroeker in this Section. A perusal of the articles will reveal that the research entailed considerable expenditure of time and effort to make possible completed works of this quality.

Copies of both law reviews are attached.

RECOMMENDATION: That SA Fern C. Stukenbroeker be commended for his research in the preparation of both of these articles. Enclosures (2) TENCLOSURE at LE

SA FERN C. STUKENEROEKER, at 12 Noon, February 23, 1961, appeared as the principal speaker before the Civitan Club of Memphis at the Peabody Hotel in Memphis, Tennessee.

There were present at this meeting some 200 people, including outstanding citizens of Hemphis, such as former Mayor EDMUND ORGILL; CARL CARSON, member of the Transit Board of Hemphis; the President of Southwestern University; Chief of Police JAMES C. MACDONALD; Captain Tennessee Highway Patrol; and others.

b6 b7C

Ir. STUKENDROEKER spoke on the subject of "Amorica's Answer To Communism" and delivered a magnificent address. He performed in an outstanding manner and his speech was received enthusiastically by those in attendance. At the conclusion of Ir. STUKENDOEKER'D address, there was a standing ovation for a lengthy period of time.

LT. STUKEMEROEKER'S address was well prepared and was delivered in an excellent fashion. The Eurequ can well be proud of Lr. STUKEMEROEKER'S appearance before this group and the reputation, esteem, and respect of the FBI in this area have been substantially enhanced as a result of his performance.

Present at this meeting were representatives of the Momphis Commorcial Appeal, the Memphis Press-Scimitar, the Associated Press, and other news representatives.

Also in attendance at this luncheon was the International President of the Civitan Club, Mr. PAUL B. WEVER, an attorney of Evansville, Indiana, who flow to Memphis

for the specific purpose of attending this meeting.
Mr. WEVER also spoke for approximately five to ten minutes
prior to Mr. STUKENBROEKER'S speech.

Also present at this meeting was Mrs. KENNETH GUESS, a displaced person from Latvia, who came to America in 1948 and has resided here since that time. She is married and has two children, and is employed by McKesson & Robbins, Inc. She spoke for approximately five minutes regarding her experiences as a child in Communist Latvia and compared Communism with the democratic way of life. She did an outstanding job and was received most enthusiastically by those present.

Her appearance on the program immediately prior to Mr. STUKENEROEKER'S address provided an excellent background for him.

Almost everyone in attendance corgratulated Mr. STUKENBROEKER at the completion of his speech and numerous highly complimentary remarks concerning his appearance were made to him and to me.

The Civitan Club had purchased 45 copies of the Director's book, "Masters of Deceit" for the purpose of distribution to all of the high schools in Memphis and Shelby County, Tennessee. A number of these books were appropriately and in good taste placed on the head table during the meeting. The purpose of the purchase of these books was announced by the President of the Civitan Club during the meeting. At the completion of the meeting, Mr. JOHN Q. MILLER, President, announced to the Civitan Club the plan to provide copies of "Masters of Deceit" to all high schools in the City of Memphis and Sholby County and to inaugurate for the forthcoming year an essay-writing contest which will have as its theme: "Americanism versus Communismu which will be participated in by senior high school students. Mr. MILLER further stated that the Director's book, "Masters of Deceit" will be recommended to participants as the source of material for writing the essays.

ME # 80-0 Let. to Director 3/1/61

This program of the Civitan Club was unanimously adopted by the members at this meeting and it was announced that efforts would be made to have this program of providing "Masters of Deceit" to all high schools and to extend the essay—writing contest to all Civitan Clubs throughout the world.

Mr. WEYER, the International President, endorsed the program and indicated his support.

It is believed that this program could be most beneficial in an extensive distribution of "Masters of Deceit" throughout the United States. It is believed that if this matter is appropriately followed, that literally thousands of books may be distributed by various Civitan Clubs to high schools throughout the country.

It is suggested that the Indianapolic Office make appropriate contact with Mr. WEVER at Indianapolis, Indiana, in order to express appreciation for his making a special trip to Memphis on this occasion and for his support of this program. He should be appropriately approached as to the ways and means of putting into effect the adoption of such a program by Civitan International.

The Kemphis Office will follow up appropriately with Kr. JOHN Q. MILLER, President, Civitan Club of Kemphis in this regard.

While Mr. STUKENDOUKER was in Lemphia, he appeared on STEVE WALREN'S six o'clock p. a. news program over WECT Television Station, Lomphis, on February 27, 1961, and made an excellent appearance and presentation. Hany favorable comments have been received by the office concerning his appearance over this TV Station. It is estimated that over 209,000 viewers saw this program, not only in the City of Kemphis but in the surrounding states of Arkansas, Mississippi, and Missouri.

On the morning of February 23, 1961, he appeared on RUS HODGE'S morning show over WREC-TV, Lemphis, Tennessee, for approximately 15 minutes. He represented the Eureau in an able manner, made an excellent appearance, and numerous highly complimentary remarks have been received by this office from the viewers regarding his appearance.

ME # 80-0 Lot. to Director 3/1/61

On February 23, 1961, Mr. STUKEMEROZKER taped remarks from his Civitan Club address for Mr. STEVE WARREN, for broadcast over Radio Station WLC, Memphis, on the evening of February 28, 1961.

It is believed that the appearance of Mr. STUKEN-EROEKER in Memphis was an outstanding achievement for the Eureau in the Mid-South area and provided an excellent kickoff for the Civitan Club's program.

It is believed that the program of the Lemphis Civitan Club in providing books in the high schools in Lemphis and Shelby County, Tennessee, is an excellent one and if adopted by the Civitan International should provide a tremendous medium for the distribution of the Director's book, "Hasters of Deceit" throughout the nation.

FERN C. STUKENBROEKER Special Agent EOD 11-16-42 GS-14, \$13,510

### PART I GENERAL COMMENTS

This Special Agent has a fine personal appearance and an outstanding personality. He is extremely well liked by his fellow employees.

During the rating period this Special Agent has continued his assignment in the Research Unit of the Section and has done a most satisfactory job indeed. He is capable of handling any type of research and his finished product is far above—average from the standpoint of content. He has a great deal of originality and ingenuity and can be depended upon at all times to handle the job assigned with a minimum of supervision.

During the rating period Special Agent Stukenbroeker has handled a great number of speaking engagements, many of them on the subject of communism before large and influential groups. The response has been most gratifying indeed. In fact, he recently spoke before the Civitan Club in Memphis, Tennessee, and the Bureau was advised by an influential newspaper contact that this Special Agent was given a rising ovation at the conclusion of his speech. The newspaper contact stated that this was the only time that he recalled that a speaker had received similar treatment before this particular group. During the early fall of 1960 Special Agent Stukenbroeker addressed the Eleventh Annual Midwest College Placement Association convention in Minneapolis. This convention consisted of approximately 400 of the Nation's outstanding industrialists and educators. The Program Chairman, after Stukenbroeker's speech, wrote the Bureau in a very commendatory vein concerning the address. He stated that "the reception by the delegates of Dr. Stukenbroeker's remarks couldn't have been more enthusiastic."

In addition to his thorough background in matters pertaining to Bureau activities and history, Special Agent Stukenbroeker is a deep

### PART I GENERAL COMMENTS (Continued)

student of communism. This makes him particularly valuable in research work in this field in the division.

During the year the fine work of Agent Stukenbroeker was recognized on a number of occasions as reflected in the letters of commendation which he received. On August 18, 1960, he was commended for his excellent research in connection with an article entitled "The Federal Bureau of Investigation: The Protector of Civil Liberties," which appeared under the Director's by-line in the August, 1960, issue of the American Bar Association Journal. It was indicated that this Special Agent exhibited "splendid skill and resourcefulness" in handling this matter.

Under date of September 28, 1960, this Agent was commended by the Director on his address before the Minneapolis group mentioned previously.

Agent Stukenbroeker was further commended on November 25, 1960, for his research work on a three-part series of articles in "Christianity Today" on the subject of communism. This is considered one of the two leading Protestant religious publications and this particular series of articles won the Freedoms Foundation award. Reprints have been distributed by the tens of thousands and many requests are still being received. \*

On December 12, 1960, Agent Stukenbroeker was commended for reporting for work that day even though the vast majority of Government employees remained at home because of the hazardous travel conditions.

Based upon this Agent's over-all performance and taking into consideration the letter of censure which he received, I feel he is entitled to a rating of Excellent in Grade GS-14.

\* Under date of March 29, 1961, this Special Agent was commended for the highly capable manner in which he handled the research in connection with law review articles which appeared in the "Notre Dame Lawyer" and the "Syracuse Law Review."

Mr. Fern C. Stukenbroeker Federal Bureau of Investigation Washington, D. C.

Dear Mr. Stukenbrocker:

It is a pleasure to commend you for the outstanding job you have done in giving speeches throughout the country on the subject of communism.

You have been most effective in handling such matters as evidenced by the enthusiastic response of your audiences. You should be very proud to know that your efforts are helping the public to understand the evils of communism. I do not want the opportunity to pass without expressing my appreciation for your excellent performance.

Sincerely yours,

OSTIONAL FORM NO. 10 🚓 UNITED STATES GOVER MemorandumMatane Rosen Mr. DeLoach DATE: 5-22-61 W.C. Sullivan Tele, Room The same of the same of BUREAU SPEECHES ON COMMUNISM SUBJECT: I thought you might be interested in some general observations of Special Agent F. C. Stukenbroeker of the Crime Records Division who has given a large number of speeches on communism during the last year and recently

returned from a trip in Montana and Idaho where he appeared before three colleges and an Exchange Club sponsored meeting, attended by some 1, 200 people, in Butte, Montana.

- (1) Bureau speeches on communism are exceedingly well received. The citizens are eagerly seeking information about communism and appreciate an opportunity to hear a Bureau representative. In the eyes of the general public, the Director and the Bureau are unimpeachable experts in the field. Moreover, the Bureau can tell the story with authenticity, impartiality and accuracy. A lady recently indicated that she had traveled well over 100 miles from her home in Wyoming to Bozeman, Montana, in order, as she indicated, "to hear about communism from the FBI."
- (2) The Bureau's speeches do much in encouraging an educational approach to communism, that is, to know communism by studying the problem at a citizen's level. Many citizens indicate they have read "Masters of Deceit" and other material on communism issued by the Director. It appears obvious that other citizens simply do not understand the theoretical basis of communist ideology, and hence our speeches help not only to fill this youd but encourage individuals to study for themselves. This encourages a sane, rational, reasonable approach by citizens and cuts down extremist views.
- (3) In questions received, there has been almost an absence of anti-Bureau sentiment, even on college campuses. In fact, the young people seem-to be deeply interested in the Bureau and our work in the field of internal security. They have learned in their classes a good deal about communism. This subject, of course, is a rapidly developing field, as witnessed by a growing number of courses, seminars and study projects in East European and Russian history. However, with a few exceptions, the school is not able to give students information about communism. such as the tensions of life within the Party, the working techniques of everyday Party programs, etc., as is available to a Bureau representative. Hence, the Bureau speaker is able to furnish accurate and detailed data about communism which only a few of the most highly trained of teachers can present. Hence, we can make a positive contribution to the intellectual understanding of communism.

Jones to DeLoach Memo
Re: Bureau Speeches on Communism

- (4) Speeches on communism afford the Bureau tremendous local publicity. In cases where a local group (as a university, service club, American Legion post, etc.) has properly prepared the community for the arrival of the speaker, tremendous local interest is generated. This means, almost invariably, a good turnout and excellent response. Radio, television and papers are alerted. To secure the maximum news coverage for the speaker (the appearance is usually regarded, especially in smaller communities and areas away from Washington, as an event of unusual importance), the field office should take sufficient time and interest to cultivate press contacts, alert local civic and governmental leaders and create community-wide attention. This brings individuals from communities many miles away. Almost invariably these groups include teachers, clergymen and citizens of merit.
- and teachers. An especially large field for cultivation in Bureau speeches is the clergy. These individuals are seeking (a) more information about communism, especially in its ideological challenge to religion (b) learning about the impact of communism on young people and (c) desiring to know what they can do to fight communism. If the Bureau can help them understand this challenge, they in turn will be in a good position to carry the fight in their congregations. These clergymen are well disposed to the Bureau, but actually know little about our operations. That is why the contact with them by Bureau speakers in the ideological field is so vital. The same principles apply to teachers, especially secondary level and college teachers.
- (6) A great interest in communism today is ideological—what communism is, how it operates, what it is doing to gain converts. Hence, we can gain much by talking about the ideology, techniques and strategy of communism. This is not only an educational approach, encouraging citizens to think for themselves, but protects us from commenting on controversial issues which lead to possible criticism.

In summary, our speech program can be highly productive and beneficial. However, we should appear only before highly selective groups (with proper advance preparation by the field office). In this way, we not only can gain favorable reaction from the public but influence key intellectuals, such as teachers, clergymen, professional people, etc.

### ADDENDUM: CDD:par (3)

I have been very much impressed indeed by the ability of SA Stukenbroeker as demonstrated by the fine way he had handled speeches on communism before influential groups. Stukenbroeker, of course, has a doctor's degree, he has given a great deal of study to the subject of communism and knows it from A to Z, so to speak. From his educational background he fits in particularly well with college and church groups. Though he has given several dozen speeches during the past two years, I have yet to hear one word of criticism or complaint concerning anything he has said or done in handling these engagements. His work in this field is particularly outstanding and I think he should be commended on his handling of recent speeches, particularly those on his trip to Montana and Idaho.

### RECOMMENDATION:

That SA Stukenbroeker be commended as indicated.

Rotarians Told Of Red Threat

Dr. Fern C. Ostukenbroeker, special FBI agent from Wash-ington, told Tampa Rotary Club members yesterday that communism is "tyranny dressed in 20th Century clothes."

He said communism is a definite threat to the nation's way of life and basic traditions.

Stukenbrocker joined the Federal Bureau of Investigation in 1942 and has since worked closely with FBI Director J. Edgar Hoover on Communist infiltration.

He said that in one generation communism has conquered one-third of the people in the world and "has tentacles in the non-Communist countries."

Praises Press Ha praised the American press for "doing a wonderful job of reporting communism at work throughout the world."

Stukenbrocker said every person can help in the fight against communism by learning more about it, voting and taking an, active interest in politics, and by keeping informed through the press;

the press.

Four nien who were charter members of the Tampa Rotary Club when it was formed 47 years ago on April 7 were given certificates during the meeting citing their service to the club. They were Ernest Berger, G. Norman Baughman, Penn Dawson and G. W. Judy.

By letter of 6-15-61, SAC Mason of the Cincinnati Office advis of the outstanding success of the appearance of captioned supervisor at the Flag Day ceremonies in connection with the meeting for labor and Government employees sponsored by the U.S. Citizens Committee of Cincinnati, Ohio, on 6-14-61. He remarked that the coverage by radio and television was excellent and the

response by the public to Stukenbroeker's speech was splendid.

Stukenbroeker is one of the outstanding Bureau representatives in the speaking field. He has an extensive and comprehensive background and knowledge in the field of communism, possesses great platform poise. and has an excellent manner of speech. He is in all respects an ideal representative in this type of appearance. Particularly at this time speeches in connection with communism are most difficult and in this respect Stukenbroeker has acquitted himself with remarkable success on numerous occasions in

Dear Boss: .

I know how concerned you are about Seat of Government speakers adequately representing the Bureau, and how much care and consideration goes into the selection of proper Bureau representatives for field speaking engagements.

Through your kindness Supervisor Fern C. Stukenbroeker of the Crime Records Division appeared last night (Flag Day) at a meeting for Labor and Government employees, sponsored by the U. S. Citizens Committee of Cincinnati. In connection with that meeting we purchased 1300 copies of Masters of Deceit. The audience fell a little short of expectations, but its enthusiasm and interest were of the highest quality.

My real purpose in dropping you this note is to give you my personal views of Stukenbroeker. You need never have any fear nor concern regarding this man's ability to represent the Bureau in a highly creditable fashion. His platform poise is excellent. Enunciation perfect. Voice modulation has superior qualities. The content of his talk was timely and well fitted for the occasion. He used force and vigor and made a masterful presentation in accord with the high standards you have set.

Unquestionably Stukenbroeker did a splendid job for the FBI in this area. This was the first time I had ever heard him make a talk, and I was tremendously pleased, and so were the many FBI people and other citizens, including representatives of Xavier University, the various school systems, and other groups.

In advance of the talk, Committee Chairman A. Gus Karger and I did a fifteen-minute television film (approved

Jul 13 00

by the Bureau in advance), and we hit this and a couple advance radio programs. We arranged with Stukenbroeker to do several television shorts and radio tapes for use by news media, and the coverage by radio and television was excellent.

Supervisor Stukenbroeker is most certainly welcome in the Cincinnati Division as an official Bureau speaker on any occasion, and I am confident that you can designate him for any talk, particularly on this ticklish communism topic, without any worry at all.

Sincerely,

E. D. MASON
